## Table of Contents

### Interest and Engagement

Q2. Generally speaking, would you say that you are extremely interested in politics and public affairs, somewhat interested, not very interested, or not at all interested?

Q3. There are many elections in the state of Texas. Furthermore, many people intend to vote in a given election, but sometimes personal and professional circumstances keep them from the polls. Thinking back over the past two or three years, would you say that you voted in all elections, almost all, about half, one or two, or none at all?

Q3A. If the 2022 primary elections were held today, would you vote in the Republican primary, the Democratic primary, or wouldn't you vote in either primary?

### Most Important Problem

Q4. What would you say is the most important problem facing this country today?

Q5. What would you say is the most important problem facing the State of Texas today?

### Retrospective Assessments

Q6. How would you rate the job Joe Biden is doing as president? Would you say that you...

Q7. How would you rate the job the U.S. Congress is doing? Would you say that you...

Q8A. How would you rate the job Greg Abbott is doing as Governor? Would you say that you...

Q8B. How would you rate the job Dan Patrick is doing as Lieutenant Governor? Would you say that you...

Q8D. How would you rate the job Ken Paxton is doing as Attorney General? Would you say that you...

Q9A. How would you rate the job Ted Cruz is doing as U.S. Senator? Would you say that you...

Q9B. How would you rate the job John Cornyn is doing as U.S. Senator? Would you say that you...

Q10. Thinking about the country, do you think that things are headed in the right direction, or do you think that things are headed off on the wrong track?

Q11. Compared to a year ago, would you say that the national economy is a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?

Q12. Thinking about the State of Texas, do you think that things are headed in the right direction, or do you think that things are headed off on the wrong track?

Q13. Compared to a year ago, would you say that you and your family are economically a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?

Q14. Compared to a year ago, would you say that the Texas economy is a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?

Q15A. Based on your recent experience purchasing goods and services, do you think that prices have...

Q15B. [IF Q15A == '1. Generally increased'] And have increased prices had a major impact, a minor impact, or no impact on your current household financial situation?

Q16A. How well is democracy working in the U.S. today?

Q16B. How well is democracy working in Texas today?

### Political Figures and Elections

Q17A. [ASK IF Q3A= '1. Republican Primary'] If the 2022 Republican primary election for governor were held today, which of the following candidates would you vote for, or haven't you thought about it enough to have an opinion?

Q17B. [ASK IF Q3A= '1. Republican Primary'] If the 2022 Republican primary election for lieutenant governor were held today, which of the following candidates would you vote for, or haven't you thought about it enough to have an opinion?

Q17C. [ASK IF Q3A= '1. Republican Primary'] If the 2022 Republican primary election for attorney general were held today, which of the following candidates would you vote for, or haven't you thought about it enough to have an opinion?

Q18A. [ASK IF Q3A= '2. Democratic Primary'] If the 2022 Democratic primary election for governor were held today, which of the following candidates would you vote for, or haven't you thought about it enough to have an opinion?

## University of Texas / Texas Politics Project Crosstabs

Q18B. [ASK IF Q3A= '2. Democratic Primary'] If the 2022 Democratic primary election for lieutenant governor were held today, which of the following candidates would you vote for, or haven't you thought about it enough to have an opinion? [RANDOMIZE 1-3]

Q18C. [ASK IF Q3A= '2. Democratic Primary'] If the 2022 Democratic primary election for attorney general were held today, which of the following candidates would you vote for, or haven't you thought about it enough to have an opinion?

Q19. If the 2022 election for Governor were held today, and the candidates were [RANDOMIZE ORDER "Greg Abbott", "Beto O'Rourke"] Greg Abbott and Beto O'Rourke, who would you vote for, or haven't you thought enough about it to have an opinion?

Q20A. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Donald Trump.

Q20B. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Beto O'Rourke.

Q20C. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Greg Abbott.

Q21A\_A. Do you approve or disapprove of how Joe Biden has handled each of the following: *The economy.*

Q21A\_B. Do you approve or disapprove of how Joe Biden has handled each of the following: *Immigration and border security.*

Q21A\_C. Do you approve or disapprove of how Joe Biden has handled each of the following: *Transportation and infrastructure.*

Q21A\_D. Do you approve or disapprove of how Joe Biden has handled each of the following: *Foreign policy.*

Q21A\_E. Do you approve or disapprove of how Joe Biden has handled each of the following: *The coronavirus/COVID-19.*

Q21A\_F. Do you approve or disapprove of how Joe Biden has handled each of the following: *Voting and elections.*

Q21A\_G. Do you approve or disapprove of how Joe Biden has handled each of the following: *Climate change.*

Q21A\_H. Do you approve or disapprove of how Joe Biden has handled each of the following: *Crime and public safety.*

Q21B\_A. Do you approve or disapprove of how Greg Abbott has handled each of the following: *The economy.*

Q21B\_B. Do you approve or disapprove of how Greg Abbott has handled each of the following: *Immigration and border security.*

Q21B\_C. Do you approve or disapprove of how Greg Abbott has handled each of the following: *The coronavirus/COVID-19.*

Q21B\_D. Do you approve or disapprove of how Greg Abbott has handled each of the following: *Voting and elections.*

Q21B\_E. Do you approve or disapprove of how Greg Abbott has handled each of the following: *The electric grid in Texas.*

Q21B\_F. Do you approve or disapprove of how Greg Abbott has handled each of the following: *Public education.*

Q21B\_G. Do you approve or disapprove of how Greg Abbott has handled each of the following: *Crime and public safety.*

### **The Coronavirus Pandemic/COVID-19**

Q22. Would you say that the coronavirus/COVID-19 is...

Q23\_A. Do you approve or disapprove of how each of the following is handling the coronavirus/COVID-19? The Federal Government.

Q23\_B. Do you approve or disapprove of how each of the following is handling the coronavirus/COVID-19? State Government

Q23\_C. Do you approve or disapprove of how each of the following is handling the coronavirus/COVID-19? Local Government

Q24. Overall, how would you say efforts to deal with the coronavirus/COVID-19 are going in the U.S.?

Q25. Overall, how would you say efforts to deal with the coronavirus/COVID-19 are going in Texas?

Q26. How concerned are you about the spread of the coronavirus in your community?

Q27. Do you plan on getting a COVID vaccination?

Q27A. [ASK IF Q27 == '1. Already received a COVID vaccine'] And have you received a booster shot?

Q28. How confident are you that you would be able to get tested for the coronavirus if you thought you needed to?

Q29. In the last 30 days, have you been tested for COVID-19?

## University of Texas / Texas Politics Project Crosstabs

Q30. Thinking about how you and your family are dealing with the coronavirus pandemic, which of these best describes you these days?

Q31A. Which of the following measures, if any, are you taking in response to the coronavirus/COVID-19? Staying away from large groups.

Q31B. Which of the following measures, if any, are you taking in response to the coronavirus/COVID-19? Wearing a mask when in close contact with people outside your household.

Q32A. Based on the conditions in your local area, do you support or oppose: Requiring people to wear masks in indoor public places?

Q32B. Based on the conditions in your local area, do you support or oppose: Requiring public school students and staff to wear masks when on campus?

Q33A. Do you support or oppose requiring people to provide evidence that they have been vaccinated against COVID-19 in order to gain admission to events or activities with large groups of people?

Q33B. Do you support or oppose each of the following? Allowing businesses to require customers to provide proof of vaccination or a negative COVID test.

Q33C. Do you support or oppose each of the following? Allowing businesses to require employees to provide proof of vaccination or submit to frequent COVID testing.

Q33D. Do you support or oppose each of the following? Allowing government entities to require employees to provide proof of vaccination or submit to frequent COVID testing, unless they have a medical or religious exemption.

Q33E. Do you support or oppose each of the following? Allowing public schools to require staff to provide proof of vaccination or submit to frequent COVID testing, unless they have a medical or religious exemption.

Q33F. Do you support or oppose each of the following? Allowing public schools to require students to provide proof of vaccination or submit to frequent COVID testing, unless they have a medical or religious exemption.

### **Policy Questions**

Q34. Do you think that gun control laws be made more strict, less strict, or left as they are now?

Q35. Based on what you've heard or read, how confident are you that new laws enacted by the Texas Legislature will be effective in preventing future disruptions in utility services like those that resulted from the February 2021 winter storm?

Q36. Would you say that the quality of K-12 public school education in Texas is:

Q37. Do you support or oppose limiting the use of teaching materials that emphasize racism in the history of the United States by Texas public school teachers?

Q38A. How much have you heard about the efforts by some Texas elected officials, parents, and parent groups to remove books from public school libraries?

Q38B. [ASK IF Q38A == 1|2|3] Based on what you've read or heard, do you support or oppose the recent efforts by some Texas elected officials, parents, and parent groups to remove books from public school libraries?

Q39. Do you agree or disagree with the following statement: Parents of children in Texas public schools have enough influence on what their children are taught.

Q40. Do you think that Texas spends too much, too little, or about the right amount on border security?

Q41. Do you think that laws restricting abortion here in Texas should be made more strict, less strict, or left as they are now?

Q42. Do you support or oppose automatically banning all abortions in Texas if the U.S. Supreme Court overturns Roe v. Wade?

Q43. Do you think that the rules for voting in Texas should be made more strict, less strict, or left as they are now?

Q44. Do you agree or disagree with the following statement: Protesters who entered the United States Capitol last January 6th were attempting to overturn the results of the 2020 election.

Q45. Thinking about politics in the U.S., do you expect there to be more political violence in the future, less political violence in the future, or about the same amount of political violence?

Q46. Regardless of whom you supported, do you think Joe Biden legitimately won the 2020 presidential election?

## Sampling and Weighting Methodology for the February 2022 Texas Statewide Study

or the survey, YouGov interviewed 1344 Texas registered voters between January 27 and February 7, 2022, who were then matched down to a sample of 1200 to produce the final dataset. The respondents were matched on gender, age, race, and education. YouGov then weighted the matched set of survey respondents to known characteristics of registered voters of Texas from the 2020 Current Population survey and 2014 Pew Religious Landscape Survey.

The respondents were matched to a sampling frame on gender, age, race, and education. The frame was constructed by stratified sampling from the full 2020 Current Population Survey (CPS) voter registration supplement with selection within strata by weighted sampling with replacements (using the person weights on the public use file). For the main sample, the matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, and years of education. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles. These weights were then post-stratified on baseline party identification, the 2020 and 2016 presidential vote, ideology, and a full stratification of four-category age, four-category race, gender, and four-category education. The weights were trimmed at 7 and normalized to sum to the sample size.

The confirmed primary voters from the main sample were then combined with the oversample and split based on their vote history into 419 Democratic and 379 Republican primary voters.

The frame for the primary voter populations was constructed by stratified sampling from the full Texas voterfile subset on active voters who had voted in at least one primary election in 2012, 2014, or 2016. For each sample of Democratic and Republican primary voters, the sampled cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, and race/ethnicity. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles. These weights were then raked to match the distributions of the respective primary voter frames on gender by four category age, gender by race (4 category for Democrats, 2 category for Republicans), and four category education by race (4 category for Democrats, 2 category for Republicans). The weights were trimmed at 5 and normalized to sum to the sample size.

The margin of error of the weighted data for registered voters is 2.83% for registered voters. The margins of error of the weighted data for the full sample of Democratic and Republican primary voters are 5.98% and 5.86%, respectively.

## Survey Panel Data

The YouGov panel, a proprietary opt-in survey panel, is comprised of 1.5 million U.S. residents who have agreed to participate in YouGov Web surveys. At any given time, YouGov maintains a minimum of five recruitment campaigns based on salient current events.

Panel members are recruited by a number of methods and on a variety of topics to help ensure diversity in the panel population. Recruiting methods include Web advertising campaigns (public surveys), permission-based email campaigns, partner sponsored solicitations, telephone-to-Web recruitment (RDD based sampling), and mail-to-Web recruitment (Voter Registration Based Sampling).

The primary method of recruitment for the YouGov Panel is Web advertising campaigns that appear based on keyword searches. In practice, a search in Google may prompt an active YouGov advertisement soliciting opinion on the search topic. At the conclusion of the short survey respondents are invited to join the YouGov panel in order to receive and participate in additional surveys. After a double opt-in procedure, where respondents must confirm their consent by responding to an email, the database checks to ensure the newly recruited panelist is in fact new and that the address information provided is valid.

The YouGov panel currently has over 20,000 active panelists who are residents of Texas. These panelists cover a wide range of demographic characteristics.

## Sampling and Sample Matching

Sample matching is a methodology for selection of “representative” samples from non-randomly selected pools of respondents. It is ideally suited for Web access panels, but could also be used for other types of surveys, such as phone surveys. Sample matching starts with an enumeration of the target population. For general population studies, the target population is all adults, and can be enumerated through the use of the decennial Census or a high-quality survey, such as the American Community Survey. In other contexts, this is known as the sampling frame, though, unlike conventional sampling, the sample is not drawn from the frame. Traditional sampling, then, selects individuals from the sampling frame at random for participation in the study. This may not be feasible or economical as the contact information, especially email addresses, is not available for all individuals in the frame and refusals to participate increase the costs of sampling in this way.

Sample selection using the matching methodology is a two-stage process. First, a random sample is drawn from the target population. We call this sample the target sample. Details on how the target sample is drawn are provided below, but the essential idea is that this sample is a true probability sample and thus representative of the frame from which it was drawn.

Second, for each member of the target sample, we select one or more matching members from our pool of opt-in respondents. This is called the matched sample. Matching is accomplished using a large set of variables that are available in consumer and voter databases for both the target population and the opt-in panel.

The purpose of matching is to find an available respondent who is as similar as possible to the selected member

## University of Texas / Texas Politics Project Crosstabs

of the target sample. The result is a sample of respondents who have the same measured characteristics as the target sample. Under certain conditions, described below, the matched sample will have similar properties to a true random sample. That is, the matched sample mimics the characteristics of the target sample.

When choosing the matched sample, it is necessary to find the closest matching respondent in the panel of opt-ins to each member of the target sample. YouGov employs the proximity matching method to find the closest matching respondent. For each variable used for matching, we define a distance function,  $d(x,y)$ , which describes how "close" the values  $x$  and  $y$  are on a particular attribute. The overall distance between a member of the target sample and a member of the panel is a weighted sum of the individual distance functions on each attribute. The weights can be adjusted for each study based upon which variables are thought to be important for that study, though, for the most part, we have not found the matching procedure to be sensitive to small adjustments of the weights. A large weight, on the other hand, forces the algorithm toward an exact match on that dimension.

### Interest and Engagement
