University of Texas / Texas Politics Project Poll

Texas Statewide Survey

Field Dates: April 14-23, 2023 N=1200 Registered Voters

Margin of error: +/- 2.83% (3.39% adjusted for weighting) unless otherwise noted1

Interest and Engagement

Q1. Are you registered to vote in the state of Texas?

Q1	Percent
Yes, registered	100

Q2. Generally speaking, would you say that you are extremely interested in politics and public affairs, somewhat interested, not very interested, or not at all interested?

Q2	Percent
Extremely interested	39
Somewhat interested	45
Not very interested	10
Not at all interested	4
Don't know	1

Q3. There are many elections in the state of Texas. Furthermore, many people intend to vote in a given election, but sometimes personal and professional circumstances keep them from the polls. Thinking back over the past two or three years, would you say that you voted in all elections, almost all, about half, one or two, or none at all?

Q3	Percent
Every election	40
Almost every election	34
About half	11
One or two	8
None	6
Don't know	2

In calculating the margin of error (MOE) for the survey, we provide two calculations, one that compensates for the relative standard deviation of the weights and one that does not. Without taking the variance of the weights into account, the margin of error for the full sample is 2.83%. To compensate for the additional uncertainty from weighting, we apply a multiplier derived from the coefficient of variation of the weights: sqrt(1+CV^2), where CV=sd(weights)/mean(weights). For this weight sensitive calculation, the MOE for the full sample is 3.28%.

Most Important Problem

Q4. What would you say is the most important problem facing this country today? [Randomize]

Q4	Percent
Inflation/rising prices	16
Political corruption/leadership	13
Gun control/gun violence	12
The economy	8
Environment/climate change	5
Immigration	5
Moral decline	4
Border security	4
Health care	3
National security/terrorism	3
Federal spending/national debt	3
Crime	2
China	2
Unemployment/jobs	2
Abortion	2
Income inequality	2
Voting rights	1
Electoral fraud	1
Police misconduct	1
Education	1
Opioid/drug abuse	1
Homelessness	1
Coronavirus/COVID-19	1
Housing	1
Race relations	1
Taxes	1
The media	1
Partisan gridlock	1
North Korea	0
Redistricting	0
Russia	0
Sexual harassment	0
Social welfare programs	0
Energy	0
Foreign trade	0
Gas prices	0

Q5. What would you say is the most important problem facing the State of Texas today? **[Randomize]**

Q5	Percent
Border security	17
Immigration	12
Inflation/rising prices	11
Political corruption/leadership	10
Gun control/gun violence	8
Abortion	6
The economy	5
Crime	3
Environment/climate change	2

Q21. How important is it for the legislature to accomplish each of the following while meeting in Austin for its 140-day legislative session? [GRID WITH RESPONSE OPTIONS: "Extremely important", "Very important", "Somewhat important", "Not very important", "Not important", "Don't know/No opinion"] [RANDOMIZE A-O]

	Extremely important		Somewhat important			Don't know/No opinion
Improve the reliability of the state's energy grid	48	32	14	2	1	3
Reduce property taxes	41	27	19	6	3	4
Increase funding for school safety	41	30	18	5	2	3
Improve the reliability of the state's water supply	40	33	19	2	2	4
Increase funding for border security operations	37	22	18	8	12	4
Increase funding for the public education system	36	27	21	7	5	4
Give parents more oversight of their children's education in Texas public schools	36	23	18	8	10	5
Increase pay for current public school teachers	35	27	22	7	6	4
Increase funding for mental health services	35	29	25	6	2	3
Remove district and county attorneys who decline to prosecute certain types of criminal offenses	34	22	17	7	10	9
Expand legal access to abortion services	32	14	12	9	28	6
End covid restrictions by state and local governments	27	19	20	11	17	7
Increase benefits for retired public school teachers	24	27	27	9	7	6
Prohibit books in public school libraries determined to be "harmful" or inconsistent with local community values	20	17	13	10	33	7
Reduce state taxes for Texas businesses	16	22	28	13	14	7

Next, we'd like you to evaluate some proposals being considered in the Texas Legislature this year.

Q22. Please tell us whether you would support or oppose each of the following proposals for new laws: [GRID WITH RESPONSE OPTIONS "Strongly support", "Somewhat support", "Somewhat oppose", "Strongly oppose", "Don't know/No opinion] [RANDOMIZE A-P]

	Strongly support	Somewhat support	Somewhat oppose			TOTAL SUPPORT	TOTAL OPPOSE
Prohibiting local governments from using public money to pay lobbyists or organizations to represent their interests before the Texas Legislature	56	23	6	4	10	79	10
Exempting diapers, feminine hygiene products, maternity clothing, and breast pumping products from state sales taxes		30	8	5	9	78	13
Raising the legal age to purchase any firearm from 18 years of age to 21 years of age	3 57	19	9	11	5	76	20
Expanding eligibility for medicaid, the government health insurance and longterm care program for certain low-income adults and children	44 1	29	10	7	9	73	17
Providing low-income Texans with 12 months of Medicaid coverage after the birth of their child	41	32	9	7	11	73	16
Increasing punishments for violations of Texas election laws	42	30	8	8	11	72	16
Allowing courts to require a person determined to be a risk to themselves or others to temporarily surrender guns in their possession	48 s	24	9	9	10	72	18

	Strongly support	Somewhat support	Somewhat oppose			TOTAL SUPPORT	TOTAL OPPOSE
Requiring athletic participation to be based on biological sex in K-12 and higher education institutions in Texas	52	16	9	12	12	68	21
Establishing a program to offer economic incentives, like reduced property taxes, to persuade businesses to move to Texas or to expand their current operations here	26	37	15	9	13	63	24
Establishing a voucher, educational savings account (ESA), or other "school choice" program	31	29	8	18	15	60	26
Prohibiting doctors from providing gender-affirming care to minors	45	13	9	20	12	58	29
Prohibiting "drag" performances, in which one gender presents as another, in public places in the presence of a minor	42	14	7	26	11	56	33
Expanding legal casino gambling	23	26	13	21	17	49	34
Prohibiting by-mail voting for voters over the age of 65 unless they have a medical condition	24	22	10	33	11	46	43
Phasing out tenure at Texas's public universities	24	21	14	13	27	45	27
Legalizing online betting	17	21	16	25	20	38	41

Q23. How much have you heard about each of the following....["Nothing at all", "Not very much", "Some", "A lot"] [RANDOMIZE A-B]

	A lot	Some	Not very much	Nothing at all
Environmental, social, and governance (ESG) policies at investment funds and firms	13	26	30	31
Diversity, equity, and inclusion policies (DEI) at businesses and state institutions	20	29	29	23

Q24. Based on what you know, do you have a positive or negative view of each of the following? [GRID WITH RESPONSE OPTIONS "Positive view", "Negative view", "Don't know/No opinion"] [RANDOMIZE A-B]

	Positive view	Negative view	Don't know/No opinion
Environmental, social, and governance (ESG) policies at investment funds and firms	32	28	40
Diversity, equity, and inclusion policies (DEI) at businesses and state institutions	35	32	33

Q25. Who do you think should pay most of the cost for improving the reliability of the state's electric grid? **[RANDOMIZE 1-4]**

Q25	Percent
State government	48
Utilities	33
Local governments	5
Customers / rate payers	6
Don't know/No opinion	9

Q26. Do you think each of the following proposals being considered by the Texas Legislature will improve the public education system in Texas, hurt the public education system in Texas, or have no impact on the public education system in Texas? [GRID WITH RESPONSE OPTIONS: "Will improve public education", "Will hurt public education", "Will have no impact on public education", "Don't know/No opinion] [RANDOMIZE A-H]

	Will improve public education	Will hurt public education	Will have no impact on public education	Don't know/No opinion
Providing parents with information about any activities related to their child's mental, emotional, or physical health or well-being	68	8	12	12
Increasing pay and benefits for Texas public school teachers	64	9	18	9
Giving parents the right to request the review of instructional materials at their child or children's public school	56	20	14	10
Creating a voucher, educational savings account (ESA), or other "school choice" program	47	26	10	17
Limiting the extent to which public school teachers can talk about gender identity and/or sexual orientation	46	30	13	11
Limiting the extent to which public school teachers can talk about race and/or racism	39	37	11	12
Providing parents with the option of receiving a notice each time their child obtains school library materials	36	22	28	13
Removing books from public school libraries determined to be "harmful material" or inconsistent with local community values	36	40	13	11

Q27. Thinking about school shootings that have occurred in the United States in recent years, which of the following factors is <u>most</u> to blame for these school shootings? **[RANDOMIZE 1-12]**

Q27	Percent
Insufficient restrictions on gun ownership	24
Insufficient mental health resources for students	3 11
Poor enforcement of existing gun laws	11
Poor parenting	11
Insufficient security at schools	9
Violence in popular culture (for example, violent video games and movies)	8
Bullying (in-person and online)	7
Failure to identify potential school shooters in advance	6
Drug use	4
Media attention to perpetrators	4
Insufficient law enforcement training for responding to mass shootings	3
School building design (for example, too many entrances and exits)	2

Q28. As you may know, Texas law now only allows abortion to save the life of a pregnant women or to prevent "substantial impairment of major bodily function." Would you approve or disapprove of Texas enacting policies designed to... [GRID WITH RESPONSE OPTIONS "Approve strongly", "Approve somewhat", "Neither approve nor disapprove", "Disapprove somewhat", "Disapprove strongly", "Don't know/No opinion"] [RANDOMIZE A-E]

	Approve strongly	Approve somewhat	Neither approve nor disapprove	Disapprove somewhat	Disapprove strongly		TOTAL APPROVE	TOTAL DISAPPROVE
Expand legal access to abortion services	35	14	10	8	25	8	49	33
Dedicate more state resources to enforcing the state's ban on abortion	16	17	15	7	37	8	33	44
Prevent women from accessing abortion in states where abortion is still legal	14	9	15	11	40	10	23	51
Prevent women from receiving medicated abortion pills through the mail	23	12	12	8	36	7	35	44
Penalize companies that pay for abortion related travel expenses for employees living in Texas	19	16	12	7	38	9	35	45

August 2022:

	Approve strongly	Approve somewhat	Neither approve nor disapprove		Disapprove strongly	Don't know	TOTAL APPROVE	TOTAL DISAPPROVE
Expand legal access to abortion services	39	11	13	7	24	6	50	31
Dedicate more state resources to enforcing the state's ban on abortion	13	13	18	8	43	5	26	51
Prevent women from accessing abortion in states where abortion is still legal	12	6	17	10	50	6	18	60
Prevent women from receiving medicated abortion pills through the mail	17	8	16	9	45	5	25	54
Penalize companies that pay for abortion related travel expenses for employees living in Texas	19	10	14	7	45	5	29	52

Q29. Should same sex marriage be legal in Texas?

Q29	Percent
Yes, should be legal	44
No, should not be legal	42
Don't know/No opinion	14

Q30. Do you think that the sex listed on a person's original birth certificate should be the only way to define a person's gender?

	Yes	No	Unsure
Apr. 2023	63	25	12
Apr. 2022	63	26	11

Q31. Regardless of whom you supported, do you think Joe Biden legitimately won the 2020 presidential election? **[RANDOMIZE 1-2]**

	Yes	No	Not sure
Apr. 2023	56	34	10
Feb. 2023	56	35	9
Dec. 2022	57	32	11

Greg Abbott	10
Nathan Hecht	5
Don't know	39

Political Orientation

We're almost done. Now we just have a few basic questions for statistical purposes.

LIBCON. On a scale from 1 to 7, where 1 is extremely liberal, 7 is extremely conservative, and 4 is exactly in the middle, where would you place yourself? [Wording on scale: (1) "Extremely liberal," (4) "In the middle," (7) "Extremely conservative"]

LIBCON7	Percent
Extremely lib.	10
Somewhat lib.	12
Lean lib.	8
Moderate	28
Lean con.	9
Somewhat con.	18
Extremely con.	15

PID3. Generally speaking, would you say that you usually think of yourself as a...

PID3	Percent
Democrats	43
Independents	9
Republicans	48

PID7. (Uses the four PID3 follow-up questions)

PID7	Percent	
StrDem	25	
WeakDem	10	
LeanDem	8	
Ind	9	
LeanRep	13	
WeakRep	8	
StrRep	27	

REPCON. **[ASK IF PID7 >= 5]** Overall, do you think that Republican elected officials in Texas are conservative enough, too conservative, or not conservative enough?

REPCON	Percent
Conservative enough	43
Too conservative	15
Not conservative enough	33
Don't know/No opinion	9

DEMLIB. **[ASK IF PID7 <= 3]** Overall, do you think that Democratic elected officials in Texas are liberal enough, too liberal, or not liberal enough?

DEMLIB	Percent
Liberal enough	39
Too liberal	8
Not liberal enough	33
Don't know/No opinion	20

Demographics

AGE. Please indicate your age group.

AGEG	Percent
18-29 30-44 45-64 65+	18
30-44	25
45-64	35
65+	23

LOCATE. Would you say that you live in an urban, suburban, or rural community?

LOCATE	Percent
Urban	35
Suburban	47
Rural	18

METRO. Do you live in the Houston, Dallas-Fort Worth, San Antonio, or Austin metropolitan areas?

METRO	Percent
Yes, I live in the Houston area	23
Yes, I live the Dallas-Fort Worth area	28
Yes, I live in the San Antonio area	11
Yes, I live in the Austin area	10
No, I live in another part of Texas	29

CHILD. How many children are currently living with you?

CHILD	Percent
One	19
Two	11
Three	5
Four or more	2
None	63

SCHOOL. Do you have any children currently enrolled in school in Texas? (check all that apply)

	Percent
Yes, I have a child/children under 18 enrolled in public school in Texas.	20
Yes, I have a child/children under 18 enrolled in private school in Texas.	4
Yes, I have a child/children under 18 who are being home schooled in Texas.	3
No, I do not have any children under 18 in school in Texas.	74

INCOME. In which category would you place your household income last year?

INCOME	Percent
Less than \$10,000	4
\$10,000 - \$19,999	7
\$20,000 - \$29,999	8
\$30,000 - \$39,999	8
\$40,000 - \$49,999	7
\$50,000 - \$59,999	8
\$60,000 - \$69,999	6
\$70,000 - \$79,999	8
\$80,000 - \$99,999	7
\$100,000 - \$119,999	8
\$120,000 - \$149,999	8
More than \$150,000	9
Prefer not to say	12

AB. Generally speaking, do you consider yourself to be pro-life, pro-choice, or neither?

AB	Percent
Pro-life	41
Pro-choice	41
Neither	13
Don't know	5

EDU. What is the highest level of education that you received?

EDU	Percent
Less than high school	2
High school degree	27
Some college	19
Two-year college degree	13
Four-year college degree	26
Post-graduate degree	13

RELIG. What is your primary religious affiliation, if any? [No open response on "other"]

P20. In the 2020 presidential election, who did you vote for?

presvote20post	Percent	
Did not vote for President	12	
Donald Trump	46	
Howie Hawkins	0	
Jo Jorgensen	0	
Joe Biden	40	
Other	1	

Sampling and Weighting Methodology for the April 2023 Texas Statewide Study

For the survey, YouGov interviewed 1,254 Texas registered voters between April 14-23rd, 2023 who were then matched down to a sample of 1,200 to produce the final dataset. The respondents were matched on gender, age, race, and education. YouGov then weighted the matched set of survey respondents to known characteristics of registered voters of Texas from the 2020 Current Population Survey (CPS) Voting and Registration supplements, the 2020 National Election Pool (NEP) exit poll, and the 2020 CES surveys, including demographics and 2020 presidential vote.

The respondents were matched to a sampling frame on gender, age, race, and education. The frame was constructed by stratified sampling from the full 2020 Current Population Survey (CPS) voter registration supplement with selection within strata by weighted sampling with replacements (using the person weights on the public use file). For the main sample, the matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, and years of education. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles. These weights were then post-stratified on baseline party identification, the 2020 and 2016 presidential vote, ideology, and a full stratification of four-category age, four-category race, gender, and four-category education. The weights were trimmed at 7 and normalized to sum to the sample size.

The margin of error of for registered voters is \pm 2.83%, and 3.39% compensating for the relative standard deviation of the weights.

Survey Panel Data

The YouGov panel, a proprietary opt-in survey panel, is comprised of 1.5 million U.S. residents who have agreed to participate in YouGov Web surveys. At any given time, YouGov maintains a minimum of five recruitment campaigns based on salient current events.

Panel members are recruited by a number of methods and on a variety of topics to help ensure diversity in the panel population. Recruiting methods include Web advertising campaigns (public surveys), permission-based email campaigns, partner sponsored solicitations, telephone-to-Web recruitment (RDD based sampling), and mail-to-Web recruitment (Voter Registration Based Sampling).

The primary method of recruitment for the YouGov Panel is Web advertising campaigns that appear based on keyword searches. In practice, a search in Google may prompt an active YouGov advertisement soliciting opinion on the search topic. At the conclusion of the short survey respondents are invited to join the YouGov panel in order to receive and participate in additional surveys. After a double opt-in procedure, where respondents must confirm their consent by responding to an email, the database checks to ensure the newly recruited panelist is in fact new and

that the address information provided is valid.

The YouGov panel currently has over 20,000 active panelists who are residents of Texas. These panelists cover a wide range of demographic characteristics.

Sampling and Sample Matching

Sample matching is a methodology for selection of "representative" samples from non-randomly selected pools of respondents. It is ideally suited for Web access panels, but could also be used for other types of surveys, such as phone surveys. Sample matching starts with an enumeration of the target population. For general population studies, the target population is all adults, and can be enumerated through the use of the decennial Census or a high-quality survey, such as the American Community Survey. In other contexts, this is known as the sampling frame, though, unlike conventional sampling, the sample is not drawn from the frame. Traditional sampling, then, selects individuals from the sampling frame at random for participation in the study. This may not be feasible or economical as the contact information, especially email addresses, is not available for all individuals in the frame and refusals to participate increase the costs of sampling in this way.

Sample selection using the matching methodology is a two-stage process. First, a random sample is drawn from the target population. We call this sample the target sample. Details on how the target sample is drawn are provided below, but the essential idea is that this sample is a true probability sample and thus representative of the frame from which it was drawn.

Second, for each member of the target sample, we select one or more matching members from our pool of opt-in respondents. This is called the matched sample. Matching is accomplished using a large set of variables that are available in consumer and voter databases for both the target population and the opt-in panel.

The purpose of matching is to find an available respondent who is as similar as possible to the selected member of the target sample. The result is a sample of respondents who have the same measured characteristics as the target sample. Under certain conditions, described below, the matched sample will have similar properties to a true random sample. That is, the matched sample mimics the characteristics of the target sample.

When choosing the matched sample, it is necessary to find the closest matching respondent in the panel of opt-ins to each member of the target sample. YouGov employs the proximity matching method to find the closest matching respondent. For each variable used for matching, we define a distance function, d(x,y), which describes how "close" the values x and y are on a particular attribute. The overall distance between a member of the target sample and a member of the panel is a weighted sum of the individual distance functions on each attribute. The weights can be adjusted for each study based upon which variables are thought to be important for that study, though, for the most part, we have not found the matching procedure to be sensitive to small adjustments of the weights. A large weight, on the other hand, forces the algorithm toward an exact match on that dimension.
