## Table of Contents

Methodology.....	7
Interest and Engagement.....	9
Q2. Generally speaking, would you say that you are extremely interested in politics and public affairs, somewhat interested, not very interested, or not at all interested?.....	9
Q3. There are many elections in the state of Texas. Furthermore, many people intend to vote in a given election, but sometimes personal and professional circumstances keep them from the polls. Thinking back over the past two or three years, would you say that you voted in all elections, almost all, about half, one or two, or none at all?.....	11
Q3A. How enthusiastic would you say you are about voting in the 2024 election?.....	13
Most Important Problem.....	15
Q4. What would you say is the most important problem facing this country today?.....	15
Q5. What would you say is the most important problem facing the State of Texas today?.....	17
Retrospective Assessments.....	19
Q6. How would you rate the job Joe Biden is doing as president? Would you say that you.....	19
Q7. How would you rate the job the U.S. Congress is doing? Would you say that you.....	21
Q7A. How would you rate the job the U.S. Supreme Court is doing? Would you say that you.....	23
Q8A. How would you rate the job Greg Abbott is doing as Governor? Would you say that you.....	25
Q8B. How would you rate the job Dan Patrick is doing as Lieutenant Governor? Would you say that you.....	27
Q8C. How would you rate the job Dade Phelan is doing as Speaker of the Texas House of Representatives? Would you say that you.....	29
Q8C2. How would you rate the job the Texas Legislature is doing? Would you say that you.....	31
Q8D. How would you rate the job Ken Paxton is doing as Attorney General? Would you say that you.....	33
Q9A. How would you rate the job Ted Cruz is doing as U.S. Senator? Would you say that you.....	35
Q9B. How would you rate the job John Cornyn is doing as U.S. Senator? Would you say that you.....	37
Q10. Thinking about the country, do you think that things are headed in the right direction, or do you think that things are headed off on the wrong track?.....	39
Q11. Compared to a year ago, would you say that the national economy is a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?.....	41
Q12. Thinking about the State of Texas, do you think that things are headed in the right direction, or do you think that things are headed off on the wrong track?.....	43
Q13. Compared to a year ago, would you say that you and your family are economically a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?.....	45
Q14. Compared to a year ago, would you say that the Texas economy is a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?.....	47
Q15. Is Texas’s increasing racial and ethnic diversity a cause for optimism or a cause for concern?.....	49
Q16. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of labor unions.....	51

**University of Texas / Texas Politics Project Poll**  
**December 2023 Texas Statewide Survey Crosstabs**

Q17A. Generally speaking, do you think labor unions are good or bad for each of the following... Workers.....	53
Q17B. Generally speaking, do you think labor unions are good or bad for each of the following... Businesses.....	55
Q17C. Generally speaking, do you think labor unions are good or bad for each of the following... Consumers.....	57
Q17D. Generally speaking, do you think labor unions are good or bad for each of the following... The State of Texas.....	59
Q17E. Generally speaking, do you think labor unions are good or bad for each of the following...The United States of America.....	61
Political Figures and Elections.....	63
Q18A. Favorability ratings: Joe Biden.....	63
Q18B. Favorability ratings: Donald Trump.....	65
Q18C. Favorability ratings: Chris Christie.....	67

News Attention.....152

    Q27A. How much have you heard in the news recently about each of the following: The legal problems of former president Donald Trump.....152

    Q27B. How much have you heard in the news recently about each of the following: The legal problems of Hunter Biden.....154

    Q27C. How much have you heard in the news recently about each of the following: U.S. House impeachment investigation of Joe Biden.....156

    Q27D. How much have you heard in the news recently about each of the following: The Colony Ridge development in Texas.....158

**University of Texas / Texas Politics Project Poll**  
**December 2023 Texas Statewide Survey Crosstabs**

Q27E. How much have you heard in the news recently about each of the following: The Hamas terrorist attack in Israel and the Israeli response.....160

Q27F. How much have you heard in the news recently about each of the following: Anti-semitic sentiment in the United States.....162

Q27G. How much have you heard in the news recently about each of the following: Anti-Islamic sentiment in the United States.....164

Q27H. How much have you heard in the news recently about each of the following: Efforts by state officials to establish a voucher, educational savings account (ESA), or other “school choice” program in Texas.....166

Q27I. How much have you heard in the news recently about each of the following: Governor Greg Abbott’s endorsement of Donald Trump for president.....168

Q27J. How much have you heard in the news recently about each of the following: The Special Sessions of the Texas Legislature.....170

Q27K. How much have you heard in the news recently about each of the following: The war in Ukraine.....172

International.....174

Q28. Do you approve or disapprove of Israel’s response to the October 7 terrorist attacks by Hamas? .....174

Q29. Which of the following is closest to your view of the United States’ response to the current conflict between Israel and Hamas? The U.S. should.....176

Q30. Do you think the U.S. is doing too much, too little, or about the right amount in response to the Russian invasion of Ukraine?.....178

Immigration Policy.....180

Q31A. Turning next to national immigration policy, do you support or oppose each of the following ideas? Allowing illegal immigrants living in the U.S. the opportunity to become citizens after a long waiting period if they pay taxes and a penalty and pass a criminal background check.....180

Q31B. Turning next to national immigration policy, do you support or oppose each of the following ideas? Tightening U.S. border security and providing Border Patrol with increased technology, infrastructure, and personnel.....182

Q31C. Turning next to national immigration policy, do you support or oppose each of the following ideas? Requiring U.S. business owners to check the immigration status of any employee they hire, with stiff fines and penalties for employers who knowingly hire illegal immigrants.....184

Q31D. Turning next to national immigration policy, do you support or oppose each of the following ideas? Allowing engineers and scientists from other countries who earn graduate degrees in the U.S. to remain in the U.S. to work.....186

Q31E. Turning next to national immigration policy, do you support or oppose each of the following ideas? Varying the number of low-skilled immigrants allowed to enter the country depending on how the U.S. economy is doing.....188

Q31F. Turning next to national immigration policy, do you support or oppose each of the following ideas? Making it easier for companies to hire high-skilled workers from other countries to work in the U.S.....190

Q31G. Turning next to national immigration policy, do you support or oppose each of the following ideas? Constructing and/or repairing walls or physical barriers on the border between the U.S. and Mexico.....192

Policy Questions.....	194
Q32. How closely have you been following the Texas Legislature?.....	194
Q33A. Below are some proposals that the Texas Legislature considered recently. Please tell us whether you support or oppose each of the following? Establishing a voucher, educational savings account (ESA), or other “school choice” program in Texas.....	196
Q33B. Below are some proposals that the Texas Legislature considered recently. Please tell us whether you support or oppose each of the following? Increasing state funding for constructing and/or repairing walls or physical barriers on the border between Texas and Mexico.....	198
Q33C. Below are some proposals that the Texas Legislature considered recently. Please tell us whether you support or oppose each of the following? Making it a state crime for an undocumented immigrant to be in Texas in most circumstances.....	200
Q33D. Below are some proposals that the Texas Legislature considered recently. Please tell us whether you support or oppose each of the following? Providing additional state police resources to the Colony Ridge development in Liberty County, Texas.....	202
Q33E. Below are some proposals that the Texas Legislature considered recently. Please tell us whether you support or oppose each of the following? Prohibiting private employers from requiring their employees to get a COVID-19 vaccination.....	204
Q33F. Below are some proposals that the Texas Legislature considered recently. Please tell us whether you support or oppose each of the following? Increasing funding for public school safety .....	206
Q33G. Below are some proposals that the Texas Legislature considered recently. Please tell us whether you support or oppose each of the following? Increasing per student funding for public schools.....	208
Q33H. Below are some proposals that the Texas Legislature considered recently. Please tell us whether you support or oppose each of the following? Increasing pay for public school teachers..	210
Q34A. How confident are you that the Texas legislature accomplished each of the following during its legislative sessions this year? Increased the reliability of the state’s electric grid.....	212
Q34B. How confident are you that the Texas legislature accomplished each of the following during its legislative sessions this year? Increased the reliability of the state’s water supply.....	214
Q34C. How confident are you that the Texas legislature accomplished each of the following during its legislative sessions this year? Reduced property taxes enough to make a difference to most Texans.....	216
Q34D. How confident are you that the Texas legislature accomplished each of the following during its legislative sessions this year? Improved the safety of Texas’ public schools.....	218
Q34E. How confident are you that the Texas legislature accomplished each of the following during its legislative sessions this year? Improved security along the Texas-Mexico border.....	220
Q35. What is your opinion on the legalization of marijuana possession?.....	222
Q37. Which of the following best characterizes your opinion on the death penalty for those convicted of violent crimes?.....	224
Q38. How often do you think people are wrongly convicted of death penalty offenses in the state of Texas?.....	226
Q39. Do you support or oppose expanding eligibility for Medicaid, the government health insurance and long-term care program for certain low-income adults and children?.....	228

**University of Texas / Texas Politics Project Poll**  
**December 2023 Texas Statewide Survey Crosstabs**

Q40. Regardless of whom you supported, do you think Joe Biden legitimately won the 2020 presidential election?.....230

## Methodology

### Sampling and Weighting Methodology for the December 2023 Texas Statewide Study

For the survey, YouGov interviewed 1,254 Texas registered voters between December 1<sup>st</sup> – 10<sup>th</sup>, 2023 who were then matched down to a sample of 1,200 to produce the final dataset. The respondents were matched to a sampling frame on gender, age, race, and education.<sup>1</sup> The frame was constructed by using different subsets of a politically representative "modelled frame" of US adults, based upon the American Community Survey (ACS) public use microdata file, public voter file records, the 2020 Current Population Survey (CPS) Voting and Registration supplements, the 2020 National Election Pool (NEP) exit poll, and the 2020 CES surveys, including demographics and 2020 presidential vote.

The matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity and years of education. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles. The weights were then post-stratified on 2020 Presidential vote choice, and a four-way stratification of gender, age (4-categories), race (4-categories), and education (4-categories), to produce the final weight.

The margin of error for the entire sample of registered voters is +/-2.83%, and 3.38% accounting for the weighted data.

### Survey Panel Data

The YouGov panel, a proprietary opt-in survey panel, is comprised of 1.5 million U.S. residents who have agreed to participate in YouGov Web surveys. At any given time, YouGov maintains a minimum of five recruitment campaigns based on salient current events.

Panel members are recruited by a number of methods and on a variety of topics to help ensure diversity in the panel population. Recruiting methods include Web advertising campaigns (public surveys), permission-based email campaigns, partner sponsored solicitations, telephone-to-Web recruitment (RDD based sampling), and mail-to-Web recruitment (Voter Registration Based Sampling).

The primary method of recruitment for the YouGov Panel is Web advertising campaigns that appear based on keyword searches. In practice, a search in Google may prompt an active YouGov advertisement soliciting opinion on the search topic. At the conclusion of the short survey respondents are invited to join the YouGov panel in order to receive and participate in additional surveys. After a double opt-in procedure, where respondents must confirm their consent by responding to an email, the database checks to ensure the newly recruited panelist is in fact new and that the address information provided is valid.

---

<sup>1</sup> A match penalty was also added to exclude respondents who saw the first version of the survey that mistakenly displayed duplicate "somewhat favorable" response options in the Q17 and Q20 batteries.

**University of Texas / Texas Politics Project Poll**  
**December 2023 Texas Statewide Survey Crosstabs**

The YouGov panel currently has over 20,000 active panelists who are residents of Texas. These panelists cover a wide range of demographic characteristics.

### **Sampling and Sample Matching**

Sample matching is a methodology for selection of “representative” samples from non-randomly selected pools of respondents. It is ideally suited for Web access panels, but could also be used for other types of surveys, such as phone surveys. Sample matching starts with an enumeration of the target population. For general population studies, the target population is all adults, and can be enumerated through the use of the decennial Census or a high-quality survey, such as the American Community Survey. In other contexts, this is known as the sampling frame, though, unlike conventional sampling, the sample is not drawn from the frame. Traditional sampling, then, selects individuals from the sampling frame at random for participation in the study. This may not be feasible or economical as the contact information, especially email addresses, is not available for all individuals in the frame and refusals to participate increase the costs of sampling in this way.

Sample selection using the matching methodology is a two-stage process. First, a random sample is drawn from the target population. We call this sample the target sample. Details on how the target sample is drawn are provided below, but the essential idea is that this sample is a true probability sample and thus representative of the frame from which it was drawn.

Second, for each member of the target sample, we select one or more matching members from our pool of opt-in respondents. This is called the matched sample. Matching is accomplished using a large set of variables that are available in consumer and voter databases for both the target population and the opt-in panel.

The purpose of matching is to find an available respondent who is as similar as possible to the selected member of the target sample. The result is a sample of respondents who have the same measured characteristics as the target sample. Under certain conditions, described below, the matched sample will have similar properties to a true random sample. That is, the matched sample mimics the characteristics of the target sample.

When choosing the matched sample, it is necessary to find the closest matching respondent in the panel of opt-ins to each member of the target sample. YouGov employs the proximity matching method to find the closest matching respondent. For each variable used for matching, we define a distance function,  $d(x,y)$ , which describes how “close” the values  $x$  and  $y$  are on a particular attribute. The overall distance between a member of the target sample and a member of the panel is a weighted sum of the individual distance functions on each attribute. The weights can be adjusted for each study based upon which variables are thought to be important for that study, though, for the most part, we have not found the matching procedure to be sensitive to small adjustments of the weights. A large weight, on the other hand, forces the algorithm toward an exact match on that dimension.

## Interest and Engagement
