

University of Texas / Texas Politics Project Poll
Texas Statewide Survey

Field Dates: April 10-20, 2026

N=1200 Registered Voters

Margin of error: +/- 2.83% (3.35% adjusted for weighting) unless otherwise noted¹

Interest and Engagement

Q1. Are you registered to vote in the state of Texas?

1. Yes, registered 100%

Q2. Generally speaking, would you say that you are extremely interested in politics and public affairs, somewhat interested, not very interested, or not at all interested?

Q2	Percent
Extremely interested	42
Somewhat interested	43
Not very interested	10
Not at all interested	6
Don't know	0

Q3. There are many elections in the state of Texas. Furthermore, many people intend to vote in a given election, but sometimes personal and professional circumstances keep them from the polls. Thinking back over the past two or three years, would you say that you voted in all elections, almost all, about half, one or two, or none at all?

Q3	Percent
Every election	35
Almost every election	37
About half	12
One or two	8
None	6
Don't know	2

¹In calculating the margin of error (MOE) for the survey, we provide two calculations, one that compensates for the relative standard deviation of the weights and one that does not. Without taking the variance of the weights into account, the margin of error for the full sample is 2.83%. To compensate for the additional uncertainty from weighting, we apply a multiplier derived from the coefficient of variation of the weights: $\sqrt{1+CV^2}$, where $CV=sd(weights)/mean(weights)$. For this weight sensitive calculation, the MOE for the full sample is 3.35%.

Most Important Problem

Q4. What would you say is the most important problem facing this country today? [Randomize]

Q4	Percent
Inflation/higher prices	18
Political corruption/leadership	16
The economy	12
Middle East instability/War in Iran	8
Moral decline	6
Immigration	5
Health care	3
Federal spending/national debt	3
Gas prices	2
Income inequality	2
National security/terrorism	2
Gun control/gun violence	2
Unemployment/jobs	2
The media	2
Environment/climate change	2
Crime	2
Border security	1
Homelessness	1
Voting rights	1
Housing	1
Electoral fraud	1
Education	1
Partisan gridlock	1
Foreign trade/tariffs	1
Artificial Intelligence/AI	1
Abortion	1
Social welfare programs	1
Taxes	1
Race relations	0
Police brutality/police militarization	0
Russia	0
Sexual harassment	0
Energy	0
Opioid/drug abuse	0

Q5. What would you say is the most important problem facing the State of Texas today?
[Randomize]

Q5	Percent
Inflation/higher prices	15
Political corruption/leadership	10
The economy	9
Immigration	8
Gas prices	5
Water supply	4
Border security	4
Moral decline	4
Unemployment/jobs	3
Energy/The grid	3
Taxes	3
Health care	3
Housing	3
Education	3
Homelessness	2
Crime	2
Gun control/gun violence	2
Abortion	2
Social welfare programs	2
War in Iran	2
Oil prices	1
Redistricting	1
State budget cuts	1
State government spending	1
Environment/climate change	1
The media	1
Transportation/roads/traffic	1
Utility rates	1
Voting rights	1
Opioid/drug abuse	1
Police misconduct	0
Race relations	0
Electoral fraud	0

Retrospective Assessments

45-64	34
65+	25

LOCATE. Would you say that you live in an urban, suburban, or rural community?

LOCATE	Percent
Urban	32
Suburban	50
Rural	17

METRO. Do you live in the Houston, Dallas-Fort Worth, San Antonio, or Austin metropolitan areas?

METRO	Percent
Yes, I live in the Houston area	19
Yes, I live the Dallas-Fort Worth area	33
Yes, I live in the San Antonio area	11
Yes, I live in the Austin area	9
No, I live in another part of Texas	28

CHILD. How many children are currently living with you?

CHILD	Percent
One	16
Two	12
Three	5
Four or more	3
None	64

SCHOOL. Do you have any children currently enrolled in school in Texas? (check all that apply)

	Percent
Yes, I have a child/children under 18 enrolled in public school in Texas.	19
Yes, I have a child/children under 18 enrolled in private school in Texas.	7
Yes, I have a child/children under 18 who are being home schooled in Texas.	2
No, I do not have any children under 18 in school in Texas.	74

INCOME. In which category would you place your household income last year?

INCOME	Percent
Less than \$10,000	7
\$10,000 - \$19,999	5
\$20,000 - \$29,999	7
\$30,000 - \$39,999	8
\$40,000 - \$49,999	7
\$50,000 - \$59,999	6
\$60,000 - \$69,999	5
\$70,000 - \$79,999	9
\$80,000 - \$99,999	11
\$100,000 - \$119,999	9
\$120,000 - \$149,999	8
More than \$150,000	11
Prefer not to say	8

AB. Generally speaking, do you consider yourself to be pro-life, pro-choice, or neither?

AB	Percent
Pro-life	41
Pro-choice	43
Neither	11
Don't know	4

EDU. What is the highest level of education that you received?

EDU	Percent
Less than high school	3
High school degree	25
Some college	22
Two-year college degree	10
Four-year college degree	26
Post-graduate degree	13

RELIG. What is your primary religious affiliation, if any? **[No open response on “other”]**

RELIG	Percent
Agnostic	3
Assembly of God	1
Atheist	4
Baptist	13
Born again	3
Buddhist	1
Catholic	24

Orthodox / Eastern Orthodox	0
Other	3
Pentecostal / charismatic / spirit-filled	1
Presbyterian	1
Protestant (non-specific)	4
Reformed	0
Religious but not spiritual	0

LITERAL. Which of these statements comes closest to describing your feelings about the Bible?

LITERAL	Percent
The Bible is the actual word of God and is to be taken literally, word for word.	35
The Bible is the word of God but not everything in it should be taken literally, word for word.	39
The Bible is a book written by men and is not the word of God.	20
Don't know.	6

IMPORT. How important is religion in your life?

IMPORT	Percent
Extremely important	44
Somewhat important	31
Not very important	11
Not at all important	14

ATTEND. Aside from weddings and funerals, how often do you attend religious services or participate in religious activities?

ATTEND	Percent
More than once a week	15
Once a week	23
A few times a month	12
Once or twice a year	21
Never	30

RACE1. What race do you consider yourself to be?

race	Percent
White / Blanco	59
Black	13
Hispanic	22
Asian	4
Mixed	1
Native American	0
Other	1

RACE2. [Ask if RACE ~= "Hispanic or Latino"] Do you happen to have a Hispanic-Latino grandparent?

RACE2	Percent
Don't know	1
No	98
Yes	1

NATIVE1. [Ask if RACE = "Hispanic or Latino"] Were you born in the United States or Puerto Rico, or in another country?

NATIVE1	Percent
Born in another country	6
Born in the United States or Puerto Rico	93
Don't know	1

NATIVE2. [Ask NATIVE2 if answer 1 on NATIVE1] Were your parents born in the United States or Puerto Rico, or another country?

NATIVE2	Percent
Both of my parents were born in the United States or Puerto Rico	72
Both of my parents were both in another country	10
One of my parents was born in another country	18

MOVE. Did you move to Texas from some other state?

MOVE	Percent
Yes	36
No	64

STATE. [ASK IF MOVE=1] Which state did you move from (most recently)? [DROPDOWN LIST OF STATES]

STATE	Percent
Alabama	1
Arizona	2
Arkansas	3
California	17
Colorado	2
Connecticut	1
Delaware	1
District of Columbia	1

VETERAN. Which of the following best describes your current situation? Please check all that apply:

	Percent
Active-duty military	1
Military veteran	10
Active-duty military in my immediate family	3
Military veteran in my immediate family	15
None of the above	74

HOME. Do you own or rent your home?

HOME	Percent
Own	72
Rent	28

MARITAL. What is your marital status?

MARITAL	Percent
Married	49
Separated	2
Divorced	11
Widowed	7
Single	27
Domestic Partnership	5

GENDER. What is your gender?

gender	Percent
Male	46
Female	54

P24. In the 2024 presidential election, who did you vote for?

presvote24post	Percent
Chase Oliver	0
Cornel West	0
Did not vote for President	14
Donald Trump	48
Jill Stein	0
Kamala Harris	37
Other	0

Sampling and Weighting Methodology for the April 2026 Texas Statewide Study

For the survey, YouGov interviewed 1,271 Texas registered voters between April 10th, 2026 – April 20th, 2026 who were then matched down to a sample of 1,200 to produce the final dataset. The respondents were matched to a sampling frame on gender, age, race, and education.¹ The frame was constructed by using different subsets of a politically representative "modelled frame" of US adults, based upon the American Community Survey (ACS) public use microdata file, public voter file records, the 2020 Current Population Survey (CPS) Voting and Registration supplements, the 2020 National Election Pool (NEP) exit poll, and the 2020 CES surveys, including demographics and the 2020 presidential vote. In addition 2024 presidential vote was weighted to the CNN exit polls.

The matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined, and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity and years of education. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles. The weights were then post-stratified on 2024 Presidential vote choice, and a four-way stratification of gender, age (4-categories), race (4-categories), and education (4-categories), to produce the final weight.

The margin of error for the sample is +/- 2.83%, and +/- 3.35% accounting for the weighted data for registered voters.

Survey Panel Data

The YouGov panel, a proprietary opt-in survey panel, is comprised of 1.5 million U.S. residents who have agreed to participate in YouGov Web surveys. At any given time, YouGov maintains a minimum of five recruitment campaigns based on salient current events.

Panel members are recruited by a number of methods and on a variety of topics to help ensure diversity in the panel population. Recruiting methods include Web advertising campaigns (public surveys), permission-based email campaigns, partner sponsored solicitations, telephone-to-Web recruitment (RDD based sampling), and mail-to-Web recruitment (Voter Registration Based Sampling).

The primary method of recruitment for the YouGov Panel is Web advertising campaigns that appear based on keyword searches. In practice, a search in Google may prompt an active YouGov advertisement soliciting opinion on the search topic. At the conclusion of the short survey respondents are invited

to join the YouGov panel in order to receive and participate in additional surveys. After a double opt-in procedure, where respondents must confirm their consent by responding to an email, the database checks to ensure the newly recruited panellist is in fact new and that the address information provided is valid.

The YouGov panel currently has over 20,000 active panellists who are residents of Texas. These panellists cover a wide range of demographic characteristics.

Sampling and Sample Matching

Sample matching is a methodology for selection of “representative” samples from non-randomly selected pools of respondents. It is ideally suited for Web access panels, but could also be used for other types of surveys, such as phone surveys. Sample matching starts with an enumeration of the target population. For general population studies, the target population is all adults, and can be enumerated through the use of the decennial Census or a high-quality survey, such as the American Community Survey. In other contexts, this is known as the sampling frame, though, unlike conventional sampling, the sample is not drawn from the frame. Traditional sampling, then, selects individuals from the sampling frame at random for participation in the study. This may not be feasible or economical as the contact information, especially email addresses, is not available for all individuals in the frame and refusals to participate increase the costs of sampling in this way.

Sample selection using the matching methodology is a two-stage process. First, a random sample is drawn from the target population. We call this sample the target sample. Details on how the target sample is drawn are provided below, but the essential idea is that this sample is a true probability sample and thus representative of the frame from which it was drawn.

Second, for each member of the target sample, we select one or more matching members from our pool of opt-in respondents. This is called the matched sample. Matching is accomplished using a large set of variables that are available in consumer and voter databases for both the target population and the opt-in panel.

The purpose of matching is to find an available respondent who is as similar as possible to the selected member of the target sample. The result is a sample of respondents who have the same measured characteristics as the target sample. Under certain conditions, described below, the matched sample will have similar properties to a true random sample. That is, the matched sample mimics the characteristics of the target sample.

When choosing the matched sample, it is necessary to find the closest matching respondent in the panel of opt-ins to each member of the target sample. YouGov employs the proximity matching method to find the closest matching respondent. For each variable used for matching, we define a distance function, $d(x,y)$, which describes how “close” the values x and y are on a particular attribute. The overall distance between a member of the target sample and a member of the panel is a weighted sum of the individual distance functions on each attribute. The weights can be adjusted for each study based upon which variables are thought to be important for that study, though, for the most part, we have not found the matching procedure to be sensitive to small adjustments of the weights. A large weight, on the other hand, forces the algorithm toward an exact match on that dimension.
