

=====  
Project Code: UTEX0059f  
Project Name: Texas Tribune - December 2024  
Prepared for: Joshua Blank  
Interviews: 1200  
Field Period: December 09, 2024 - December 17, 2024  
Project Manager: Sara Sermarini, sara.sermarini@yougov.com  
=====

YouGov interviewed 1366 respondents who were then matched down to a sample of 1200 to produce the final dataset. The respondents were matched to a sampling frame on gender, age, race, and education. The sampling frame is a Texas registered voter subset, of a politically representative "modeled frame" of US adults, based upon the American Community Survey (ACS) public use microdata file, public voter file records, the 2020 Current Population Survey (CPS) Voting and Registration supplements, the 2020 National Election Pool (NEP) exit poll, and the 2020 CES surveys, including demographics and 2020 presidential vote.

The matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, years of education, and region. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles.

The weights were then post-stratified on 2020 and 2024 presidential vote choice as well as a four-way stratification of gender, age (4-categories), race (4-categories), and education (4-categories), to produce the final weight.
