Interest and Engagement

Q1. Are you registered to vote in the state of Texas?
   1. Yes, registered 100%

Q2. Generally speaking, would you say that you are extremely interested in politics and public affairs, somewhat interested, not very interested, or not at all interested?
   1. Extremely interested 48%
   2. Somewhat interested 41
   3. Not very interested 8
   4. Not at all interested 3
   5. Don’t know 0

Q3. There are many elections in the state of Texas. Furthermore, many people intend to vote in a given election, but sometimes personal and professional circumstances keep them from the polls. Thinking back over the past two or three years, would you say that you voted in all elections, almost all, about half, one or two, or none at all?
   1. Every election 37%
   2. Almost every election 38
   3. About half 9
   4. One or two 9
   5. None 6
   6. Don’t know 1

Q3A. On a 0-10 scale, please rate how likely you are to vote in the upcoming November elections: 10 means you are absolutely certain to vote, 0 means you will definitely NOT vote, and 5 means you may or may not vote. [INSERT 0-10 SCALE AND INCLUDE “Don’t know” option]

Mean 9.11; Standard Deviation 0.06

* In calculating the margin of error (MOE) for the survey, we provide two calculations, one that compensates for the relative standard deviation of the weights and one that does not. Without taking the variance of the weights into account, the margin of error for the full sample is 2.83%. To compensate for the additional uncertainty from weighting, we apply a multiplier derived from the coefficient of variation of the weights: sqrt(1+CV^2), where CV=sd(weights)/mean(weights). For this weight sensitive calculation, the MOE for the full sample is 3.28%.
