Interest and Engagement

Q2. Generally speaking, would you say that you are extremely interested in politics and public affairs, somewhat interested, not very interested, or not at all interested?

Q3. There are many elections in the state of Texas. Furthermore, many people intend to vote in a given election, but sometimes personal and professional circumstances keep them from the polls. Thinking back over the past two or three years, would you say that you voted in all elections, almost all, about half, one or two, or none at all? Q3A. How enthusiastic would you say you are about voting in the 2020 election?

Most Important Problem

<u>Q4. What would you say is the most important problem facing this country today?</u> <u>Q5. What would you say is the most important problem facing the State of Texas today?</u>

Retrospective Assessments

Q6. How would you rate the job Donald Trump is doing as preshrefent? Would you say that you...

Q7. How would you rate the job the U.S. Congress is doing? Would you say that you...

Q8A. How would you rate the job Greg Abbott is doing as Governor? Would you say that you...

Q8B. How would you rate the job Dan Patrick is doing as Lieutenant Governor? Would you say that you...

<u>Q8C. How would you rate the job Dennis Bonnen is doing as Speaker of the Texas House of Representatives?</u> <u>Would you say that you...</u>

Q9A. How would you rate the job Ted Cruz is doing as U.S. Senator? Would you say that you...

Q9B. How would you rate the job John Cornyn is doing as U.S. Senator? Would you say that you...

Q10. Thinking about the country, do you think that things are headed in the right direction, or do you think that things are headed off on the wrong track?

Q11. Compared to a year ago, would you say that the national economy is a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?

Q12. Thinking about the State of Texas, do you think that things are headed in the right direction, or do you think that things are headed off on the wrong track?

Q13. Compared to a year ago, would you say that you and your family are economically a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?

Q14. Compared to a year ago, would you say that the Texas economy is a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?

Political Figures and Elections

Q15. If the 2020 preshrefential election were held today, would you definitely vote to re-elect Donald Trump, probably vote for someone else, or definitely vote for someone else?

Q16A. If the 2020 preshrefential election were held today, and the candhrefates were Donald Trump and Joe Biden, who would you vote for, or haven't you thought enough about it to have an opinion?

Q17. If the 2020 election for U.S. Congress in your district were held today, would you vote for the Democratic candhrefate, the Republican candhrefate, or haven't you thought enough about it to have an opinion?

Q18A. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Joe Biden.

Q18B. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Anthony Fauci.

Q19A. Do approve or disapprove of how Donald Trump has handled the economy?

Q19B. Do you approve or disapprove of how Donald Trump has handled the response to the coronavirus/COVID-19?

Q20A. Do you approve or disapprove of how Greg Abbott has handled the economy?

Q20B. Do you approve or disapprove of how Greg Abbott has handled the response to the coronavirus/COVID-19?

Policy Questions

Q21. How do you feel about the following statement: Generally speaking, the way state government runs in Texas serves as a good model for other states to follow?

Q22. Do you favor or oppose requiring employers to offer paid sick leave to employees who are ill?

Q23. Would you favor or oppose allowing all Texans to vote by mail in the upcoming 2020 general election in response to the coronavirus/COVID-19?

<u>Q24. Thinking about legal immigration, do you think the United States allows too many people to immigrate here from other countries, too few, or about the right amount?</u>

<u>Q25. Do you agree or disagree with the following statement: Undocumented immigrants currently living in the</u> <u>United States should be deported immediately.</u>

Q26. How satisfied are you with the health care system in the United States?

Q27. Would you say that the coronavirus/COVID-19 is...

Q28A. Do you approve or disapprove of how each of the following is handling the coronavirus/COVID-19? *Federal* Government

<u>Q2BB. Do you approve or disapprove of how each of the following is handling the coronavirus/COVID-19? *Texas* <u>state government</u></u>

Q28C. Do you approve or disapprove of how each of the following is handling the coronavirus/COVID-19? Your local government

Q2CD. Do you approve or disapprove of how each of the following is handling the coronavirus/COVID-19? *The* <u>news media</u>

<u>Q28E. Do you approve or disapprove of how each of the following is handling the coronavirus/COVID-19?</u> <u>Insurance companies</u>

<u>Q28F.</u> Do you approve or disapprove of how each of the following is handling the coronavirus/COVID-19? *Health* care professionals

Q29. Overall, how would you say efforts to deal with the coronavirus/COVID-19 are going in the U.S.?

Q30A. How would you rate the federal government's response to the coronavirus/COVID-19 in the following areas? *Providing the American people with clear information*

Q30B. How would you rate the federal government's response to the coronavirus/COVID-19 in the following areas?

Preventing the spread of the virus

Q30C. How would you rate the federal government's response to the coronavirus/COVID-19 in the following areas? *Taking steps to reduce economic harm*

Q30D. How would you rate the federal government's response to the coronavirus/COVID-19 in the following areas? *Ensuring healthcare workers have necessary equipment*

<u>Q30E. How would you rate the federal government's response to the coronavirus/COVID-19 in the following areas? Working cooperatively with state and local elected officials</u>

Q31. Overall, how would you say efforts to deal with the coronavirus/COVID-19 are going in Texas?

Q32A. How would you rate Texas state government's response to the coronavirus/COVID-19 in the following areas? *Providing Texans with clear information*

Q32B. How would you rate Texas state government's response to the coronavirus/COVID-19 in the following areas? *Preventing the spread of the virus*

Q32C. How would you rate Texas state government's response to the coronavirus/COVID-19 in the following areas? *Taking steps to reduce economic harm*

Q32D. How would you rate Texas state government's response to the coronavirus/COVID-19 in the following areas? *Ensuring healthcare workers have necessary equipment*

<u>Q32E. How would you rate Texas state government's response to the coronavirus/COVID-19 in the following areas? *Working cooperatively with local elected officials*</u>

Q33. How concerned are you about the spread of the coronavirus in your community?

Q34A. How concerned are you about each of the following? The nation's economy

Q34B. How concerned are you about each of the following? The Texas economy

Q34C. How concerned are you about each of the following? The stock market

Q34D. How concerned are you about each of the following? Declining oil prices

Q34E. How concerned are you about each of the following? The health care system

Q34F. How concerned are you about each of the following? Growth in federal spending

Q34G. How concerned are you about each of the following? Unemployment

<u>Q35A. Thinking about your own situation, how concerned are you about each of the following? You or someone</u> you know getting infected with the coronavirus

<u>Q35B.</u> Thinking about your own situation, how concerned are you about each of the following? *Being able to pay* your utility and other bills

Q35C. Thinking about your own situation, how concerned are you about each of the following? Losing your job

Q35D. Thinking about your own situation, how concerned are you about each of the following? Interruption of education for you or a family member

<u>Q35E.</u> Thinking about your own situation, how concerned are you about each of the following? *Loss of your* savings or retirement funds

<u>Q35F. Thinking about your own situation, how concerned are you about each of the following? Being able to pay</u> your rent or house payment

Q35G. Thinking about your own situation, how concerned are you about each of the following? *Finding or* maintaining childcare you can afford

Q35H. Thinking about your own situation, how concerned are you about each of the following? Your own physical safety or the physical safety of someone you know

Q36. As you may know, many Americans have been told to stay home if they can because of the coronavirus pandemic. Which of these best describes you these days?

Q37A. Has your work status or situation changed since the coronavirus/COVID-19 outbreak?

Q37B. [IF Q37A == "1. Yes"] Are you unemployed due to the coronavirus/COVID-19 pandemic?

<u>Q37C_A.</u> **[IF Q37A == "1. Yes" & Q37B == "2. No"]** How has your work status or situation changed? *Working* from home or remotely instead of your usual workplace

<u>Q37C_B.</u> **[IF Q37A == "1. Yes" & Q37B == "2. No"]** How has your work status or situation changed? *Working* fewer hours

<u>Q37C_C. [IF Q37A == "1. Yes" & Q37B == "2. No"]</u> How has your work status or situation changed? *Working* <u>more hours</u>

<u>Q37C_D.</u> **[IF Q37A == "1. Yes" & Q37B == "2. No"]** How has your work status or situation changed? Experienced a reduction in pay

<u>Q37C_E. [IF Q37A == "1. Yes" & Q37B == "2. No"]</u>How has your work status or situation changed? Experienced a reduction in benefits (for example, insurance and/or retirement)

Q37D. **[IF Q37A=="2. No"]** Which of the following best describes your work status or situation both before and after the coronavirus/COVID-19 outbreak?

<u>Q37E.</u> **[ASK IF Q37D==3]4]** Which of the following best describes your work situation both before and after the coronavirus/COVID-19 outbreak?

Q38. Do you think that people you know are doing too much, enough, or not enough to adjust their habits to prevent the spread of coronavirus/COVD-19?

Q39. Which of the following do you think is a bigger threat to the country?

Q40. When do you think the coronavirus will be contained in the U.S. to the point that most activities like social gatherings, workplaces, and sporting events can return to normal?

Q41. Would you support or oppose requiring a mandatory 14-day self-quarantine for anyone exposed to the coronavirus?

Q42A. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? *Donald* <u>*Trump*</u>

Q42B. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? Greg Abbott

Q42C. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? Your local elected officials

Q42D. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? Religious leaders and clergy

Q42E. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? The Centers for Disease Control (CDC)

Q42F. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? *Medical* and health professionals

Q42G. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? The news media

Q42H. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? Social

media and online sources

Q421. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? Your friends and family

Q42J. Who do you trust and not trust to give you accurate information about the coronavirus/COVID-19? Your employer

Q43A. How much do you rely on each of the following sources for information about the coronavirus/COVID-19? *Cable News*

Q43B. How much do you rely on each of the following sources for information about the coronavirus/COVID-19? Network TV news (ABC, NBC, CBS)

Q43C. How much do you rely on each of the following sources for information about the coronavirus/COVID-19? Facebook

Q43D. How much do you rely on each of the following sources for information about the coronavirus/COVID-19? *Twitter*

Q43E. How much do you rely on each of the following sources for information about the coronavirus/COVID-19? Social media other than Facebook or Twitter

Q43F. How much do you rely on each of the following sources for information about the coronavirus/COVID-19? *Newspaper and online journalism outlets*

Q43G. How much do you rely on each of the following sources for information about the coronavirus/COVID-19? Conversations with family and close friends

Q43H. How much do you rely on each of the following sources for information about the coronavirus/COVID-19? Local news sources

Q43I. How much do you rely on each of the following sources for information about the coronavirus/COVID-19? <u>Radio</u>

Q44A. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? *Requiring Texans to stay at home except for essential activities*

Q44B. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? *Suspending the operation of businesses determined to be "non-essential"*

Q44C. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? *Prohibiting the size of gatherings to 10 people or less*

Q44D. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? *Restricting in-person religious services of more than 10 people*

Q44E. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? *Closing public schools*

Q44F. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? Establishing additional hospital facilities to meet anticipated needs

Q44G. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? *Prohibiting healthcare provhrefers from performing abortions*

Q44H. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? Requiring travelers from other cities and/or states with outbreaks to self-quarantine if they come to Texas

Q44I. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? *Releasing some non-violent offenders awaiting trial in county jails*

Q44J. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? *Postponing the May 2020 run-off elections*

Q44K. Do you favor or oppose the following measures taken by Texas's state and local governments to address the coronavirus/COVID-19? *Closing state parks and recreational facilities*

Sampling and Weighting Methodology for the April 2020 Texas Statewide Study

For the survey, YouGov interviewed 1497 Texas registered voters between April 10 and April 19, 2020, who were then matched down to a sample of 1200 to produce the final dataset. The respondents were matched on gender, age, race, and education. YouGov then weighted the matched set of survey respondents to known characteristics of registered voters of Texas from the 2018 Current Population survey and 2014 Pew Religious Landscape Survey.

The respondents were matched to a sampling frame on gender, age, race, and education. The frame was constructed by stratified sampling from the full 2018 Current Population Survey (CPS) voter registration supplement with selection within strata by weighted sampling with replacements (using the person weights on the public use file). For the main sample, the matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, and years of education. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles. These weights were then post-stratified on baseline party identification, the 2016 presidential vote, ideology, and a full stratification of four-category age, four-category race, gender, and four-category education. The weights were trimmed at 7 and normalized to sum to the sample size.

The margin of error of the weighted data for registered voters is 3.3%.

Survey Panel Data

The YouGov panel, a proprietary opt-in survey panel, is comprised of 1.2 million U.S. residents who have agreed to participate in YouGov Web surveys. At any given time, YouGov maintains a minimum of five recruitment campaigns based on salient current events.

Panel members are recruited by a number of methods and on a variety of topics to help ensure diversity in the panel population. Recruiting methods include Web advertising campaigns (public surveys), permission-based email campaigns, partner sponsored solicitations, telephone-to-Web recruitment (RDD based sampling), and mail-to-Web recruitment (Voter Registration Based Sampling).

The primary method of recruitment for the YouGov Panel is Web advertising campaigns that appear based on keyword searches. In practice, a search in Google may prompt an active YouGov advertisement soliciting opinion on the search topic. At the conclusion of the short survey respondents are invited to join the YouGov panel in order to receive and participate in additional surveys. After a double opt-in procedure, where respondents must confirm their consent by responding to an email, the database checks to ensure the newly recruited panelist is in fact new and that the address information provided is valid.

The YouGov panel currently has over 20,000 active panelists who are residents of Texas. These panelists cover a wide range of demographic characteristics

Sampling and Sample Matching

Sample matching is a methodology for selection of "representative" samples from non-randomly selected pools of respondents. It is ideally suited for Web access panels, but could also be used for other types of surveys, such as phone surveys. Sample matching starts with an enumeration of the target population. For general population studies, the target population is all adults, and can be enumerated through the use of the decennial Census or a high-quality survey, such as the American Community Survey. In other contexts, this is known as the sampling frame, though, unlike conventional sampling, the sample is not drawn from the frame. Traditional sampling, then, selects individuals from the sampling frame at random for participation in the study. This may not be feasible or economical as the contact information, especially email addresses, is not available for all individuals in the frame and refusals to participate increase the costs of sampling in this way.

Sample selection using the matching methodology is a two-stage process. First, a random sample is drawn from the target population. We call this sample the target sample. Details on how the target sample is drawn are provided below, but the essential idea is that this sample is a true probability sample and thus representative of the frame from which it was drawn.

Second, for each member of the target sample, we select one or more matching members from our pool of opt-in respondents. This is called the matched sample. Matching is accomplished using a large set of variables that are available in consumer and voter databases for both the target population and the opt-in panel.

The purpose of matching is to find an available respondent who is as similar as possible to the selected member of the target sample. The result is a sample of respondents who have the same measured characteristics as the target sample. Under certain conditions, described below, the matched sample will have similar properties to a true random sample. That is, the matched sample mimics the characteristics of the target sample.

When choosing the matched sample, it is necessary to find the closest matching respondent in the panel of opt-ins to each member of the target sample. YouGov employs the proximity matching method to find the closest matching respondent. For each variable used for matching, we define a distance function, d(x,y), which describes how "close" the values x and y are on a particular attribute. The overall distance between a member of the target sample and a member of the panel is a weighted sum of the individual distance functions on each attribute. The weights can be adjusted for each study based upon which variables are thought to be important for that study, though, for the most part, we have not found the matching procedure to be sensitive to small adjustments of the weights. A large weight, on the other hand, forces the algorithm toward an exact match on that dimension.
