Interest and Engagement

Q2. Generally speaking, would you say that you are extremely interested in politics and public affairs, somewhat interested, not very interested, or not at all interested?

Most Important Problem

Q4. What would you say is the most important problem facing this country today?

Q5. What would you say is the most important problem facing the State of Texas today?

Retrospective Assessments

Q6. How would you rate the job Joe Biden is doing as preshrefent? Would you say that you...

Q6A. Do you approve or disapprove of how Joe Biden has handled the response to the coronavirus/COVID-19?

Q7. How would you rate the job the U.S. Congress is doing? Would you say that you...

Q8A. How would you rate the job Greg Abbott is doing as Governor? Would you say that you...

Q8A2. Do you approve or disapprove of how Greg Abbott has handled the response to the coronavirus/COVID-19?

Q8B. How would you rate the job Dan Patrick is doing as Lieutenant Governor? Would you say that you...

Q8C. How would you rate the job Dade Phelan is doing as Speaker of the Texas House of Representatives? Would you say that you...

Q9A. How would you rate the job Ted Cruz is doing as U.S. Senator? Would you say that you...

Q9B. How would you rate the job John Cornyn is doing as U.S. Senator? Would you say that you...

Q10. Thinking about the country, do you think that things are headed in the right direction, or do you think that things are headed off on the wrong track?

Q12. Thinking about the State of Texas, do you think that things are headed in the right direction, or do you think that things are headed off on the wrong track?

Q13. Compared to a year ago, would you say that you and your family are economically a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?

Q14. Compared to a year ago, would you say that the Texas economy is a lot better off, somewhat better off, about the same, somewhat worse off, or a lot worse off?

Q15. How closely have you been following the Texas Legislature this session?

<u>Q16_A. How familiar would you say you are with each of the following: The Electric Reliability Council of Texas (ERCOT)</u>

Q16 B. How familiar would you say you are with each of the following: The Public Utility Commission of Texas (PUC)

Q16 C. How familiar would you say you are with each of the following: Railroad Commission of Texas

Q16A. To the best of your knowledge, which of the following statements is most true?

Winter Storm Experience

Q17_A. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Record snow and ice*

Q17_B. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. Water outages

Q17_C. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Rolling electricity blackouts*

Q17_D. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Extended electricity outages*

Q17_E. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Gasoline shortages (at the pump)*

Q17 F. The winter storm involved a number of events. How much have yoU heard about each of the following related to the winter storm and its effects. *Contaminated water and/or "boil water" notices*

Q17_G. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Frozen wind turbines*

Q17_H. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Frozen power plant facilities or generators*

Q17_I. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Frozen natural gas pipelines or equipment*

Q17_J. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Hospital closures*

Q17_K. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Dangerous road conditions*

Q17_L. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Food shortages*

Q17_M. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Electricity price spikes*

Q17_N. The winter storm involved a number of events. How much have you heard about each of the following related to the winter storm and its effects. *Injuries or deaths of Texans*

Q18_A. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? Governor Greg Abbott

Q18 B. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? Senator Ted Cruz

Q18_C. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? Senator John Cornyn

Q18_D. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? The Texas Legislature

Q18_E. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? Your local government

Q18 F. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? The Electric Reliability Council of Texas (ERCOT)

Q18 G. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? The Public Utility Commission of Texas (PUC)

Q18_H. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? Railroad Commission of Texas

Q18 I. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? <u>Your electric provider</u>

Q18 J. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? Your water utility

Q18_K. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? Your gas utility

Q18_L. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? *your neighbors*

Q18_M. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? Local businesses

Q18_N. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? The electric power industry

Q18_O. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? The natural gas industry

Q18_P. Do you approve or disapprove of how each of the following has handled the response to the winter storm and its effects? *The renewable energy industry*

Q18A. How confident are you that the Texas Legislature will pass effective laws to prevent future disruptions in utility services like those that resulted from the winter storm?

Q19A. Overall, how much difficulty did you face as a result of the winter storm and its effects?

Q19B. Do you think your experience during the winter storm was better than most Texans, about the same, or worse?

Q20_A. Did you experience any of the following during the winter storm? Electricity stopped working in your home

Q20_B. Did you experience any of the following during the winter storm? Natural gas service to your home was interrupted

Q20_C. Did you experience any of the following during the winter storm? Water service to your home was interrupted

Q20_D. Did you experience any of the following during the winter storm? Dangerous or obstructed roads

Q20 E. Did you experience any of the following during the winter storm? Damaged trees on your property

Q20_F. Did you experience any of the following during the winter storm? Damage to your home

Q20 G. Did you experience any of the following during the winter storm? Damage to your vehicle

Q20B_A. Did you experience any of the following during the winter storm? Did not have enough food

Q20B_B. Did you experience any of the following during the winter storm? Had to take out-of-the-ordinary measures to have enough food

Q20B_C. Did you experience any of the following during the winter storm? Purchased or had to obtain water for drinking

Q20B_D. Did you experience any of the following during the winter storm? Boiled water for cooking, cleaning, and/or drinking

Q20B_E. Did you experience any of the following during the winter storm? Could not heat your home at all

Q20B_F. Did you experience any of the following during the winter storm? Could heat your home, but not as much as normal

Q20B_G. Did you experience any of the following during the winter storm? Did not have reliable internet access in your home

Q20B_H. Did you experience any of the following during the winter storm? Did not have reliable internet access on your cell phone Q20B_I. Did you experience any of the following during the winter storm? Did not have reliable phone service (cell phones or landlines)

Q20B_J. Did you experience any of the following during the winter storm? *Had to stay somewhere other than your home* Q20B_K. Did you experience any of the following during the winter storm? *Tried to stay somewhere other than your home, but was* <u>unable to</u>

Q20B_L. Did you experience any of the following during the winter storm? Accommodated others in your home Q21_A. Did you or a member of your household lose access to any of the following resources during the winter storm? Transportation — because personal vehicles stopped working or were inaccessible

Q21_B. Did you or a member of your household lose access to any of the following resources during the winter storm? Transportation — because road conditions where you live were too dangerous

Q21_C. Did you or a member of your household lose access to any of the following resources during the winter storm? Transportation — because city transportation services, like buses, trains, trollies, and/or accessibility services, were not available

Q21_D. Did you or a member of your household lose access to any of the following resources during the winter storm? *In-person learning for school-age children*

Q21_E. Did you or a member of your household lose access to any of the following resources during the winter storm? *Online learning for school-age children*

Q21_F. Did you or a member of your household lose access to any of the following resources during the winter storm? In person higher education or certificate training

Q21 G. Did you or a member of your household lose access to any of the following resources during the winter storm? Online higher education or certificate training

Q22 A. Did you or a member of your household experience any of the following during the winter storm? *Difficulties caring for an infant*

Q22_B. Did you or a member of your household experience any of the following during the winter storm? *Difficulties managing child care*

Q22_C. Did you or a member of your household experience any of the following during the winter storm? *Difficulties caring for a pet or pets*

Q22 D. Did you or a member of your household experience any of the following during the winter storm? *Difficulties caring for elderly family members*

Q22_E. Did you or a member of your household experience any of the following during the winter storm? *Difficulties caring for household members with disabilities*

Q22_F. Did you or a member of your household experience any of the following during the winter storm? *Difficulties caring for neighbors who needed assistance*

Q23_A. Did you or a member of your household experience any of the following as a result of the winter storm and its effects? Was unable to go to work and lost income

Q23_B. Did you or a member of your household experience any of the following as a result of the winter storm and its effects? *Was unable to go to work but did not lose income*

Q23 C. Did you or a member of your household experience any of the following as a result of the winter storm and its effects? A financial hardship related to the effects of the storm

Q23 D. Did you or a member of your household experience any of the following as a result of the winter storm and its effects? A car accident

Q23 E. Did you or a member of your household experience any of the following as a result of the winter storm and its effects? A non-urgent health problem

Q23 F. Did you or a member of your household experience any of the following as a result of the winter storm and its effects? A health emergency

Q23 G. Did you or a member of your household experience any of the following as a result of the winter storm and its effects? An electricity bill that was higher than normal

Q23 H. Did you or a member of your household experience any of the following as a result of the winter storm and its effects? A natural gas bill that was higher than normal

Q23_I. Did you or a member of your household experience any of the following as a result of the winter storm and its effects? A water bill that was higher than normal

Q24_A. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Electricity stopped working in your home*

Q24 B. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Natural gas service to your home was interrupted*

Q24_C. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. Water service to your home was interrupted

Q24_D. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Dangerous or obstructed roads*

Q24 E. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Damaged trees on your property*

Q24_F. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Damage to your home*

Q24_G. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Damage to your vehicle*

Q24B_A. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Did not have enough food*

Q24B_B. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Had to take out-of-the-ordinary measures to have enough food*

Q24B_C. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Purchased or had to obtain water for drinking*

Q24B_D. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate

March 2021, Texas Politics Project/UT Energy Institute Poll

the number of days you experienced the issue. Boiled water for cooking, cleaning, and/or drinking

Q24B_E. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Could not heat your home at all*

Q24B_F. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Could heat your home, but not as much as normal*

Q24B_G. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Did not have reliable internet access in your home*

Q24B_H. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Did not have reliable internet access on your cell phone*

Q24B_I. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Did not have reliable phone service (cell phones or landlines)*

Q24B_J. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Had to stay somewhere other than your home*

Q24B_K. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. *Tried to stay somewhere other than your home, but was unable to*

Q24B_L. In the prior questions you identified some of your experiences during the winter storm. For each of these, please indicate the number of days you experienced the issue. Accommodated others in your home

Q25_A. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. *Over-reliance on renewable energy sources*

Q25_B. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. Over-reliance on fossil fuels (e.g. coal, natural gas)

Q25_C. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. *Deregulation of the electricity sector*

Q25_D. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. Not enough regulation of the gas industry

Q25_E. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. *Texas's use of a largely independent electricity grid*

Q25_F. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. *Climate change*

Q25_G. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. Lack of winterization of electricity facilities

Q25 H. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. Lack of winterization of gas production facilities

Q25_I. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. *Human error in operating the electric grid*

Q25_J. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. *Policy making failures by Texas lawmakers*

Q25_K. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. Lack of individual preparation

Q25_L. Please indicate the extent to which you think the following factors contributed to the negative impacts of the winter storm in Texas. The unprecedented nature of the winter storm

Q25A. And which of the following do you think was the **biggest factor** contributing to the negative impacts of the winter storm in <u>Texas?</u>

Q25B. And which of the following do you think was the second biggest factor contributing to the negative impacts of the winter storm in Texas?

Q26_A. Would you support or oppose each of the following proposals in response to the winter storm and its effects? *Require* energy providers to weatherize their facilities

Q26 B. Would you support or oppose each of the following proposals in response to the winter storm and its effects? *Provide* government funds to energy providers to weatherize their facilities

Q26_C. Would you support or oppose each of the following proposals in response to the winter storm and its effects? Require all Energy Reliability Council of Texas (ERCOT) board members to reside in Texas

Q26 D. Would you support or oppose each of the following proposals in response to the winter storm and its effects? *Require that* companies and regulators ensure higher levels of reserve energy to meet spikes in demand

Q26 E. Would you support or oppose each of the following proposals in response to the winter storm and its effects? Add more renewable energy to Texas's energy supply

Q26_F. Would you support or oppose each of the following proposals in response to the winter storm and its effects? Add more fossil fuel generation to Texas's energy supply

Q26_G. Would you support or oppose each of the following proposals in response to the winter storm and its effects? Create a council of government energy regulators and emergency managers to coordinate during disasters

Q26_H. Would you support or oppose each of the following proposals in response to the winter storm and its effects? Ban products that allow residential customers to pay wholesale electricity prices that may save them money, but may also expose them to high bills during energy shortages

Q26_I. Would you support or oppose each of the following proposals in response to the winter storm and its effects? Create a statewide disaster alert system to alert Texans about impending weather-related disasters and power outages

Q26_J. Would you support or oppose each of the following proposals in response to the winter storm and its effects? Require the Energy Reliability Council of Texas (ERCOT) to reduce the price of wholesale power paid by utilities in the electricity market during

the winter storm.

Q27_A. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? Buy a backup generator(s)

Q27_B. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? Buy a battery designed to store energy to power your home in an emergency

Q27_C. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? *Install solar panels*

Q27_D. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? *Purchase electric backup for gas service (e.g. electric heaters)*

Q27_E. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? *Purchase and store emergency food supply*

Q27_F. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? *Purchase and store emergency water supply*

Q27_G. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? Add a fireplace or wood burning stove to your home

Q27_H. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? *Create an emergency plan*

Q27_I. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? *Reinforce home with insulation or weatherization upgrades*

Q27_J. Which, if any, of the following actions will your household take moving forward in response to the winter storm and its effects? *Purchase renter's insurance*

Q28. When thinking about the winter storm and its effects, who do you think was hurt most by the storm? [OPEN-ENDED] Q29. Who did you rely on to provide accurate and reliable information during the winter storm? Please list up to three. [OPEN-ENDED]

Q30. Do you think climate change is happening, do you think climate change is not happening, or aren't you sure?

Q28_A. Which of the following measures, if any, are you taking in response to the coronavirus/COVID-19? *Staying away from large groups*

Q28_B. Which of the following measures, if any, are you taking in response to the coronavirus/COVID-19? Avoiding other people as much as possible

Q28_C. Which of the following measures, if any, are you taking in response to the coronavirus/COVID-19? *Wearing a mask when in close contact with people outside your household*

Q29A. Do you approve or disapprove of the recent decision by Governor Greg Abbott to end all capacity limits on businesses in Texas?

Q29B. Do you approve or disapprove of the recent decision by Governor Greg Abbott to end Texas's statewide mask mandate?

Sampling and Weighting Methodology for the March 2021 Texas Statewide Study

For the survey, YouGov interviewed 1441 Texas registered voters between March 19 and March 26, 2021, who were then matched down to a sample of 1200 to produce the final dataset. The respondents were matched on gender, age, race, and education. YouGov then weighted the matched set of survey respondents to known characteristics of registered voters of Texas from the 2018 Current Population survey and 2014 Pew Religious Landscape Survey.

The respondents were matched to a sampling frame on gender, age, race, and education. The frame was constructed by stratified sampling from the full 2018 Current Population Survey (CPS) voter registration supplement with selection within strata by weighted sampling with replacements (using the person weights on the public use file). For the main sample, the matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, and years of education. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles. These weights were then post-stratified on baseline party identification, the 2020 and 2016 presidential vote, ideology, and a full stratification of four-category age, four-category race, gender, and four-category education. The weights were trimmed at 7 and normalized to sum to the sample size.

The margin of error of the weighted data for registered voters is 2.8% for registered voters (if adjusted for weighting, the margin of error for registered voters is 3.5%).

Survey Panel Data

The YouGov panel, a proprietary opt-in survey panel, is comprised of 1.5 million U.S. residents who have agreed to participate in YouGov Web surveys. At any given time, YouGov maintains a minimum of five recruitment campaigns based on salient current events.

Panel members are recruited by a number of methods and on a variety of topics to help ensure diversity in the panel population. Recruiting methods include Web advertising campaigns (public surveys), permission-based email campaigns, partner sponsored solicitations, telephone-to-Web recruitment (RDD based sampling), and mail-to-Web recruitment (Voter Registration Based Sampling).

The primary method of recruitment for the YouGov Panel is Web advertising campaigns that appear based on keyword searches. In practice, a search in Google may prompt an active YouGov advertisement soliciting opinion on the search topic. At the conclusion of the short survey respondents are invited to join the YouGov panel in order to receive and participate in additional surveys. After a double opt-in procedure, where respondents must confirm their consent by responding to an email, the database checks to ensure the newly recruited panelist is in fact new and that the address information provided is valid.

The YouGov panel currently has over 20,000 active panelists who are residents of Texas. These panelists cover a wide range of demographic characteristics.

Sampling and Sample Matching

Sample matching is a methodology for selection of "representative" samples from non-randomly selected pools of respondents. It is ideally suited for Web access panels, but could also be used for other types of surveys, such as phone surveys. Sample matching starts with an enumeration of the target population. For general population studies, the target population is all adults, and can be enumerated through the use of the decennial Census or a high-quality survey, such as the American Community Survey. In other contexts, this is known as the sampling frame, though, unlike conventional sampling, the sample is not drawn from the frame. Traditional sampling, then, selects individuals from the sampling frame at random for participation in the study. This may not be feasible or economical as the contact information, especially email addresses, is not available for all individuals in the frame and refusals to participate increase the costs of sampling in this way.

Sample selection using the matching methodology is a two-stage process. First, a random sample is drawn from the target population. We call this sample the target sample. Details on how the target sample is drawn are provided below, but the essential idea is that this sample is a true probability sample and thus representative of the frame from which it was drawn.

Second, for each member of the target sample, we select one or more matching members from our pool of opt-in respondents. This is called the matched sample. Matching is accomplished using a large set of variables that are available in consumer and voter databases for both the target population and the opt-in panel.

The purpose of matching is to find an available respondent who is as similar as possible to the selected member of the target sample. The result is a sample of respondents who have the same measured characteristics as the target sample. Under certain conditions, described below, the matched sample will have similar properties to a true random sample. That is, the matched sample mimics the characteristics of the target sample.

When choosing the matched sample, it is necessary to find the closest matching respondent in the panel of opt-ins to each member of the target sample. YouGov employs the proximity matching method to find the closest matching respondent. For each variable used for matching, we define a distance function, d(x,y), which describes how "close" the values x and y are on a particular attribute. The overall distance between a member of the target sample and a member of the panel is a weighted sum of the individual distance functions on each attribute. The weights can be adjusted for each study based upon which variables are thought to be important for that study, though, for the most part, we have not found the matching procedure to be sensitive to small adjustments of the weights. A large weight, on the other hand, forces the algorithm toward an exact match on that dimension.

Interest and Engagement

Q2. Generally speaking, would you say that you are extremely interested in politics and public affairs, somewhat interested, not very interested, or not at all interested?

Q2	Extremely	Somewhat	Not very	Not at all	Don't know
-	Interested	Interested	Interested	Interested	
Percent	47	40	9	3	0
White	54	37	6	3	1
Black	39	46	11	4	0

March 2021, Texas Politics Project/UT Energy Institute Poll

Q25/	Lack of winterization of electricity facilities	The unprecedented nature of the winter storm	Texas's use of a largely independent electricity grid	Over- reliance on renewable energy sources	Policy making failures by Texas lawmakers	Human error in operating the electric grid	Deregulation of the electricity sector	Climate change	Lack of individual preparation	Lack of winterization of gas production facilities	Not enough regulation of the gas industry	Over- reliance on fossil fuels (e.g. coal, natural gas)
Moderate	26	9	18	4	12	11	7	3	2	4	3	1
