[RANDOMIZE 1-3]

Q21A. If the 2022 election for the United States House of Representatives in your district were held today, which of the following candidates would you vote for, or haven't you thought about it enough to have an opinion? [RANDOMIZE 1-2]

Q21B. If the 2022 election for the Texas Legislature in your district were held today, which of the following candidates would you vote for, or haven't you thought about it enough to have an opinion? [RANDOMIZE 1-2]

Q22A. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Donald Trump.

Q22B. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Joe Biden.

Q22C. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Greg Abbott.

Q22D. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Beto O'Rourke.

Q22E. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Dan Patrick.

Q22F. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Mike Collier.

Q22G. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Ken Paxton.

Q22H. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Rochelle Garza.

Q22I. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Sid Miller.

Q22J. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Susan Hays.

Q22K. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Dawn Buckingham.

Q22L. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of Jay Kleberg.

Q23A. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of the Republican Party.

Q23B. Please tell us whether you have a very favorable, somewhat favorable, neither favorable nor unfavorable, somewhat unfavorable, or very unfavorable opinion of the Democratic Party.

Q24A. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on the state economy?

Q24B. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on immigration and border security?

Q24C. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on public safety?

Q24D. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on property taxes?

Q24D. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on health care?

Q24F. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on public education?

Q24G. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on voting and elections?

Q24H. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on abortion?

Q24I. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on gun violence?

Q24J. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on the state's electric grid?

Q24K. Which candidate for governor, [RANDOMIZE "Greg Abbott", "Beto O'Rourke] Greg Abbott or Beto O'Rourke, do you trust to do a better job on the environment/climate change?

Q25A. How important are each of the following issues to your vote in the 2022 Election? the state economy?

Q25B. How important are each of the following issues to your vote in the 2022 Election? immigration and border security?

Q25C. How important are each of the following issues to your vote in the 2022 Election? public safety?

Q25D. How important are each of the following issues to your vote in the 2022 Election? property taxes?

Q25D. How important are each of the following issues to your vote in the 2022 Election? health care?

Q25F. How important are each of the following issues to your vote in the 2022 Election? public education?

The Coronavirus Pandemic/COVID-19

Policy Questions

"substantial impairment of major bodily function." Would you approve or disapprove of Texas enacting policies designed to...Dedicate more state resources to enforcing the state's ban on abortion.

Q36C. As you may know, Texas law now only allows abortion to save the life of a pregnant women or to prevent "substantial impairment of major bodily function." Would you approve or disapprove of Texas enacting policies designed to...Prevent women from accessing abortion in states where abortion is still legal.

Q36D. As you may know, Texas law now only allows abortion to save the life of a pregnant women or to prevent "substantial impairment of major bodily function." Would you approve or disapprove of Texas enacting policies designed to...Prevent women from receiving medicated abortion pills through the mail.

Q36E. As you may know, Texas law now only allows abortion to save the life of a pregnant women or to prevent "substantial impairment of major bodily function." Would you approve or disapprove of Texas enacting policies designed to...Penalize companies that pay for abortion related travel expenses for employees living in Texas.

Q37A. In each of the following circumstances, how much time do you think a woman should have to obtain a legal abortion? The woman's health is seriously endangered.

Q37B. In each of the following circumstances, how much time do you think a woman should have to obtain a legal abortion? The woman became pregnant as a result of rape.

Q37C. In each of the following circumstances, how much time do you think a woman should have to obtain a legal abortion? The woman became pregnant as a result of incest.

Q37D. In each of the following circumstances, how much time do you think a woman should have to obtain a legal abortion? There is a strong chance of a serious birth defect.

Q37E. In each of the following circumstances, how much time do you think a woman should have to obtain a legal abortion? The family has very low income and cannot afford any more children.

Q37F. In each of the following circumstances, how much time do you think a woman should have to obtain a legal abortion? The woman is not married and does not want to marry.

Q37G. In each of the following circumstances, how much time do you think a woman should have to obtain a legal abortion? The woman is married and does not want any more children.

Q38. Do you think that gun control laws be made more strict, less strict, or left as they are now?

Q39A. How much do you think each of the following factors contributed to the severity of the mass shooting at a Uvalde, Texas elementary school that resulted in the deaths of 19 students and 2 teachers in May of this year? The weapon used by the shooter.

Q39B. How much do you think each of the following factors contributed to the severity of the mass shooting at a Uvalde, Texas elementary school that resulted in the deaths of 19 students and 2 teachers in May of this year? The delay by police in confronting the shooter.

Q39C. How much do you think each of the following factors contributed to the severity of the mass shooting at a Uvalde, Texas elementary school that resulted in the deaths of 19 students and 2 teachers in May of this year? Flaws in school safety practices.

Q39D. How much do you think each of the following factors contributed to the severity of the mass shooting at a Uvalde, Texas elementary school that resulted in the deaths of 19 students and 2 teachers in May of this year? The shooter's family history.

Q39E. How much do you think each of the following factors contributed to the severity of the mass shooting at a Uvalde, Texas elementary school that resulted in the deaths of 19 students and 2 teachers in May of this year? Weaknesses in the mental health system.

Q40. Have Texas's elected officials done enough, too much, or too little to prevent mass shootings in Texas?

Q41. Would you say that the quality of K-12 public school education in Texas is:

Q42. What do you think is the most important issue in K-12 public education in Texas? [Open-Ended]

Q43. Do you support or oppose ending bilingual education in Texas public schools?

Q44. Do you support or oppose passing an English-only amendment to the Texas constitution?

Q45. Do you support or oppose the state of Texas paying to bus foreign migrants awaiting their asylum hearings to other parts of the country outside Texas?

Q46. Do you agree or disagree with the following statement: Undocumented immigrants currently living in the United States should be deported immediately.

Q47. Do you think that Texas spends too much, too little, or about the right amount on border security?

Q48. Regardless of whom you supported, do you think Joe Biden legitimately won the 2020 presidential election? [RANDOMIZE 1-2]

University of Texas / Texas Politics Project Crosstabs

Sampling and Weighting Methodology for the September 2022 Texas Statewide Study

For the survey, YouGov interviewed 1,360 Texas registered voters between August 26 – September 6, 2022 who were then matched down to a sample of 1,200 to produce the final dataset. The respondents were matched on gender, age, race, and education. YouGov then weighted the matched set of survey respondents to known characteristics of registered voters of Texas from the 2020 Current Population survey and 2014 Pew Religious Landscape Survey.

The respondents were matched to a sampling frame on gender, age, race, and education. The frame was constructed by stratified sampling from the full 2020 Current Population Survey (CPS) voter registration supplement with selection within strata by weighted sampling with replacements (using the person weights on the public use file). For the main sample, the matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, and years of education. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles. These weights were then post-stratified on baseline party identification, the 2020 and 2016 presidential vote, ideology, and a full stratification of four-category age, four-category race, gender, and four-category education. The weights were trimmed at 7 and normalized to sum to the sample size.

The margin of error of the weighted data for registered voters is 2.83% for registered voters and 3.3% for the weighted data.

Survey Panel Data

The YouGov panel, a proprietary opt-in survey panel, is comprised of 1.5 million U.S. residents who have agreed to participate in YouGov Web surveys. At any given time, YouGov maintains a minimum of five recruitment campaigns based on salient current events.

Panel members are recruited by a number of methods and on a variety of topics to help ensure diversity in the panel population. Recruiting methods include Web advertising campaigns (public surveys), permission-based email campaigns, partner sponsored solicitations, telephone-to-Web recruitment (RDD based sampling), and mail-to-Web recruitment (Voter Registration Based Sampling).

The primary method of recruitment for the YouGov Panel is Web advertising campaigns that appear based on keyword searches. In practice, a search in Google may prompt an active YouGov advertisement soliciting opinion on the search topic. At the conclusion of the short survey respondents are invited to join the YouGov panel in order to receive and participate in additional surveys. After a double opt-in procedure, where respondents must confirm their consent by responding to an email, the database checks to ensure the newly recruited panelist is in fact new and that the address information provided is valid.

The YouGov panel currently has over 20,000 active panelists who are residents of Texas. These panelists cover a wide range of demographic characteristics.

Sampling and Sample Matching

Sample matching is a methodology for selection of "representative" samples from non-randomly selected pools of respondents. It is ideally suited for Web access panels, but could also be used for other types of surveys, such as phone surveys. Sample matching starts with an enumeration of the target population. For general population studies, the target population is all adults, and can be enumerated through the use of the decennial Census or a high-quality survey, such as the American Community Survey. In other contexts, this is known as the sampling frame, though, unlike conventional sampling, the sample is not drawn from the frame. Traditional sampling, then, selects individuals from the sampling frame at random for participation in the study. This may not be feasible or economical as the contact information, especially email addresses, is not available for all individuals in the frame and refusals to participate increase the costs of sampling in this way.

Sample selection using the matching methodology is a two-stage process. First, a random sample is drawn from the target population. We call this sample the target sample. Details on how the target sample is drawn are provided below, but the essential idea is that this sample is a true probability sample and thus representative of the frame from which it was drawn.

Second, for each member of the target sample, we select one or more matching members from our pool of opt-in respondents. This is called the matched sample. Matching is accomplished using a large set of variables that are available in consumer and voter databases for both the target population and the opt-in panel.

The purpose of matching is to find an available respondent who is as similar as possible to the selected member of the target sample. The result is a sample of respondents who have the same measured characteristics as the target sample. Under certain conditions, described below, the matched sample will have similar properties to a true random sample. That is, the matched sample mimics the characteristics of the target sample.

When choosing the matched sample, it is necessary to find the closest matching respondent in the panel of opt-ins to each member of the target sample. YouGov employs the proximity matching method to find the closest matching respondent. For each variable used for matching, we define a distance function, $d(x,y)$, which describes how "close" the values x and y are on a particular attribute. The overall distance between a member of the target sample and a member of the panel is a weighted sum of the individual distance functions on each attribute. The weights can be adjusted for each study based upon which variables are thought to be important for that study, though, for the most part, we have not found the matching procedure to be sensitive to small adjustments of the weights. A large weight, on the other hand, forces the algorithm toward an exact match on that dimension.

Interest and Engagement

Q2. Generally speaking, would you say that you are extremely interested in politics and public affairs, somewhat interested, not very interested, or not at all interested?
